

OMAR OUWEIDAT

Lebanon

Email: omarfk35@gmail.com

Phone: +961 78 988 114

Date of Birth: 02 October 2006

PROFILE

Motivated second-year Computer and Communication Engineering student with a growing focus on Software Engineering and Web Development. Strong foundation in C++ programming, problem-solving, and computer networks, with hands-on experience through academic projects and laboratory work. Actively seeking a Software Engineering Internship to develop real-world coding skills, contribute to development teams, and gain industry experience. **Strong analytical background with excellent performance in mathematics and physics, supporting problem-solving and engineering-focused coursework.**

EDUCATION

Antonine University, Baabda – Lebanon

Bachelor of Computer and Communication Engineering

2024 – Present

GPA: 3.4 / 4.0

Lebanese Official Baccalaureate: 16.6 / 20

TECHNICAL SKILLS

Programming Languages: C++ (fundamentals), HTML5, CSS3

Software & Tools: Visual Studio, VS Code, AutoCAD

Networking & Systems: Cisco Networking Fundamentals, LAN/WAN concepts, Packet Tracer

Engineering & Labs: Arduino programming (basic I/O and sensors), oscilloscope measurements, debugging and testing

PROJECTS

C++ Management System Project

Developed a C++ console application using dynamic memory allocation, arrays of structures, and file handling for data storage and retrieval.

Data Structures Project

Implemented fundamental data structures in C++ including singly linked lists, doubly linked lists, stacks, queues, and binary trees, with operations such as insertion, deletion, and traversal.

Web Development Project (HTML & CSS)

Designed and developed a 7-page static website using HTML and CSS, focusing on structure, layout, and consistent styling.

Linux & Virtualization Project

Worked on VMWare with Red Hat Linux and wrote shell scripts to automate basic system tasks and practice Linux command-line operations.

EXPERIENCE

Cheeky Monkeys, Beirut – Lebanon

F&B Attendant / Receptionist

2024 – 2025

Worked in a fast-paced environment requiring multitasking, accuracy, teamwork, and effective communication with customers and staff.

LANGUAGES

Arabic: Native

English: Fluent

French: Fluent (B2)
