

OMAR JAMIL BANAT

FULL STACK DEVELOPER | REACT & NESTJS SPECIALIST

Beirut, Lebanon | o.j.banat@gmail.com | +961 76 843 642 | [Github](#) | [Linkedin](#)

PROFILE

Full Stack Developer with 3+ years of experience building scalable, cloud-based web and mobile applications. Skilled in React, NestJS, and AWS. Proven track record of mentoring developers and leading cross-functional projects from concept to deployment.

PROFESSIONAL EXPERIENCE

Full Stack Developer, Poyesis (Feb 2024 - Present*)

- **GPE (SAS):**

- Tech Stack: React, NestJS, Socket.IO, Shopify, REST APIs, SOAP APIs, GraphQL, Tailwind CSS, TanStack Router & Table

- Led the frontend architecture for both admin and store dashboards.
 - Integrated Shopify APIs for order dispatch processing with a custom split system.
 - Implemented Socket.IO for live order updates and integrated refund handling (discounts & gift cards).
 - Integrated Chronopost (delivery service) and the client's SOAP APIs for logistics automation.

- **Shango:**

- Tech Stack: Flutter, NestJS, Socket.IO, AWS (EC2, RDS), App Store Connect, Play Console
 - Built and deployed a real-time cross-platform messaging app with room-based chats and presence tracking.
 - Managed secure authentication and backend infrastructure on AWS.
 - Released on both App Store and Play Store.

- **Reedoo Wholesale:**

- Tech Stack: React (TypeScript), Tailwind CSS, NestJS, AWS (EC2, S3, RDS, CloudFront)
 - Developed a B2B wholesale platform with role-based access, product management, and bulk order handling.
 - Built a responsive frontend and deployed a scalable backend on AWS

- **Hoboo:**

- Tech Stack: React (TypeScript), Tailwind CSS, NestJS, AWS (Elastic Beanstalk, S3, RDS, CloudFront)
 - Developed a property registration platform where users register homes with documents and details.
 - Enabled secure ownership transfer with full data traceability.
 - Managed deployment and infrastructure scalability on AWS Elastic Beanstalk.

Full Stack Development Trainer, AUF - Agence Universitaire de la Francophonie x Simplon

04/2023 – 01/2024 (Full-time) | 09/2024 – 05/2025 (Part-time)

- Designed, developed, and maintained a comprehensive, project-based curriculum covering front and backend full-stack development, focusing on modern JavaScript technologies (React and Node.js).

- Implemented Simplon's learner-centered pedagogy to foster self-reliance, critical thinking, and problem-solving skills among trainees.
- Mentored and supported 20+ trainees through personalized coaching, code reviews, and tailored feedback to accelerate their technical growth and job readiness.
- Conducted regular assessments to track proficiency, identify skill gaps, and provide actionable improvement plans.
- Facilitated agile workflows, including sprint planning, daily standups, and retrospectives to mirror industry best practices and prepare trainees for collaborative development environments.
- Collaborated with faculty and stakeholders to continuously improve the curriculum based on trainee feedback and evolving industry trends.

Full Stack Developer, Codi Tech (11/2022 - 06/2023)

- Worked on multiple projects using React, Node.js, and various databases with Agile methodologies:
 - Weather API: Built a real-time weather app with React and OpenWeatherMap.
 - Portfolio Project: Developed a full-stack portfolio app using React, Node.js, and MongoDB.
 - Learning Management System (LMS): Created an LMS with React, MaterialUI, PHP Laravel, and MySQL.
 - WordPress Starter Kit: Set up WordPress projects with domain hosting and Elementor editor.
 - Graduation Project: Full-stack app deployment using React, Node.js, MongoDB, Netlify, and Render.

Frontend Web Developer, Re:Coded (07/2022 - 12/2022)

- Trained in frontend web development using HTML, CSS, JavaScript, and React.
- Collaborated via GitHub with pull requests and deployed projects on Netlify and Vercel.

Software Developer, Digital Future (07/2021 - 11/2022)

- Contributed to web and mobile app features using C++, Node.js, SQL, React, and Swift.
- Maintained WordPress sites and developed REST APIs, including a Firebase-connected search feature for an iOS app.

EDUCATION

BS in Computer Engineering, Lebanese International University, Graduated, 2021 (Honors List)

SKILLS

- Frontend: React, Next.js, Flutter, Tailwind, CSS, Styled Components
- Backend: Node.js, NestJS, Express.js, Laravel
- Databases: PostgreSQL, MySQL, MongoDB, SQLite
- Cloud & DevOps: AWS (EC2, S3, RDS, CloudFront, Elastic Beanstalk), Docker, Netlify, Vercel
- Tools: Git, GitHub, Bitbucket, Trello
- Languages: JavaScript, TypeScript, Java, C++, Swift

LANGUAGES

- Arabic - Native
- English - Professional Working Proficiency
