

## CAROLINE AJAMI

London, United Kingdom • +44 7833482403 • [caroline.ajami5@gmail.com](mailto:caroline.ajami5@gmail.com) • LinkedIn:carolineajami

### EDUCATION

**Queen Mary University of London — London, UK**

**Bachelor of Computer Science**

Sept 2024 - June 2027

- Core concepts: Object-oriented programming (OOP), Algorithms and Data Structures, Web Development and Computer Systems.
- Gained hands-on experience with Java, Python, JavaScript, and Python through various projects

**Kaplan International College Of London- London, UK**

**Foundation Year in Computer Science and Engineering**

Sept 2023-May 2024

- Completed a comprehensive foundation year focused on programming, engineering principles, and core mathematics.

**College Louis Wegmann- Beirut, Lebanon**

**High School Diploma**

Sept 2009-June 2023

- Focused on Mathematics, French, English, Arabic, Civics, History, Geography, Biology, Physics, Chemistry and Philosophy
- Served as Class President for three years, demonstrating strong leadership and organisational skills.

### EXPERIENCE

**My Monty - Beirut, Lebanon**

June 2025-August 2025

**Software Developer Intern**

- Developed fintech product features using C, .NET, API and RESTful APIs
- Tested and debugged code to ensure optimal functionality and security.

**Intelligence Tech Solution - London, UK**

August 2025-Present

**Data Science Trainee Intern**

- Automated data processing, utilising Python, improves task efficiency by 15%.
- Developed and implemented machine learning models for predictive tasks.

**Berut Bistro- London, UK**

May 2025-June 2025

**Waitress**

- Delivered customer service in a fast-paced environment, managing multiple orders simultaneously
- Worked collaboratively with the team to maintain smooth restaurant operations.

### PROJECTS

**Personal Blog Website - Self Project**

January 2025

- Designed and developed a personal blog with interactive features (login, posts) using HTML, CSS, and JavaScript.
- Showcased my portfolio, projects, and academic achievements.

**Horse Race Simulator Game- Self Project**

March 2025

- Created a Java-based game that allows users to select a horse and race.
- Focused on practising programming logic and game development principles.

**Harvard edX Computer Science Course- Online**

October 2022-January 2023

- Completed an in-depth course covering computer science fundamentals, algorithms, and data structures.
- Strengthened problem-solving skills in coding challenges and algorithms.

### SKILLS AND VOLUNTEERING

- **Programming Languages:** Java, Python, JavaScript, HTML, PHP, C, CSS
- **Technologies:** RESTful APIs, .NET, Git, Machine Learning (basic), Data Processing
- **Tools:** Visual Studio, VS Code, Jupyter, GitHub
- **Languages:** Arabic (Native), English (Fluent, C2), French (Fluent, C2)
- **Doorstep Library — Volunteer** (Dec 2024 - Feb 2024) : Promoted literacy by reading books to children and helping
- **Men beib la beib — Volunteer** (December 2021): Cooked and packed meals for the homeless, helping support community welfare.
