Lebanese | Aug 26, 2005

EDUCATION

Bachelor of Science, Computer Science Beirut Arab University

May - 2026

Relevant Experience

Software Development Intern (Remote) – Coding & Create | May 2025

- Used GitHub for version control and collaborative development
- Learned and applied Flutter and Dart fundamentals in a real-world project
- Developed the frontend of a mobile banking application using Flutter
- Implemented responsive UI components and navigation for mobile devices

Projects

News Website

- Developed a fully functional website allowing users to browse and filter news articles by category
- Implemented a responsive design for compatibility across multiple devices and browsers
- Built a backend using PHP and SQL to manage articles and enable dynamic content updates

Waste Management System

- Designed and implemented a system using Object-Oriented Programming (OOP) to manage waste disposal
- Integrated features for categorizing, tracking, and reporting waste disposal data
- Created a user-friendly interface while ensuring data accuracy for improved resource management

CURA – Medical Wallet App (Ongoing, Senior Project)

- Developing a fully functional mobile application to securely store users' medical information
- Implementing an AI chatbot for healthcare guidance and quick information retrieval
- Designed and built the complete frontend and backend using Flutter, Dart, and PHP/SQL
- Ensuring responsive design, data accuracy, and secure handling of sensitive medical data

Skills

Programming Languages: Java, PHP, JavaScript, C++, C#, Dart

Frameworks & SDKs: Flutter

Web Technologies: HTML, CSS

Databases: SQL

Tools & Platforms: Git, GitHub

Concepts: Object-Oriented Programming (OOP), Data Structures, Frontend Development, Mobile App Development

Languages

- Fluent in English and Arabic
