EXPERIENCE

Futurate	**Feb 2025-Present**

Full-Stack Developer

- Developed and maintained web applications using .NET, Laravel, and Vue.js, ensuring clean architecture and efficient performance.
- Integrated RESTful APIs and optimized backend logic to enhance system scalability and responsiveness.
- Worked with cross-functional teams to implement features and fix production issues.
- Participated in code reviews, debugging, and deployment processes, following Agile development practices.
- Collaborated with team members to define technical solutions and implement best coding practices.
- Ensured application performance, security, and maintainability through continuous improvements.

ISS	**Dec 2024-Feb 2025**

Backend Developer Intern

- Built and customized websites using .NET, Umbraco CMS, and Drupal.
- Developed and optimized templates and content workflows.
- Created and customized Drupal themes and modules.
- Ensured seamless functionality through debugging and performance tuning.

OBSoft	**Aug 2024 – Nov 2024**

Full-Stack Developer Intern

- Developed web scraping solutions using Beautiful Soup, Scrapy, and Selenium.
- Built a web-based API management tool with React, focusing on HTTP methods, request components, and environment management.
- Worked with API Platform to develop and manage API entities and server-switching.
- Implemented collection management and monitoring features.
- Conducted research and set up development environments for API projects.

Touch	**Jan 2024 - Mar 2024**

Full Stack Developer Intern

- Collaborated on a service provider project, demonstrating expertise in ASP.NET Core, Entity Framework (including the Code First approach), MVC, C#, and API for both back-end and front-end development.
- Implemented full CRUD functionality, enabling comprehensive data management within the project.
- Designed the project's database for efficiency and scalability, also contributed to front-end development.

HTech	**Sept 2023 - Oct 2023**

Front-end Developer

- Participated in the front-end development of ExploreLeb, one of their startup websites.
- Utilized my expertise in HTML, CSS, and React.js to enhance the website's user interface and functionality. The development process followed the Scrum methodology, with tasks and progress tracked using Jira.
- Made sure the website was responsive.
