

Malak Merei

Lebanon, Beirut | (961) 79156386 | malakmerei98@gmail.com | www.linkedin.com/in/malak-merei-999687191

Profile

Senior Full Stack Developer with over five years of experience in the software development lifecycle (SDLC), designing, developing, and maintaining high-quality software applications. Proficient in .NET Framework/Core, ASP.NET, C#, SQL Server, WCF, WPF, MVC, JavaScript, Web Services, and RESTful APIs. Adept at collaborating in diverse teams, quickly adapting to new technologies, and delivering scalable, efficient solutions.

Experience

SENIOR WEB DEVELOPER

UN-ESCWA | OCT 2025 - PRESENT

- Developed and maintained multiple .NET Core applications, including backend services and RESTful APIs for front-end and third-party integrations
- Collaborated with international teams to standardize APIs, optimizing data retrieval and analysis across the organization.
- Implemented CRUD functionality using Entity Framework Core Power Tools in ASP.NET Web Applications, supporting chart generation and advanced report sorting.
- Leveraged ECharts for dynamic data visualization, enabling actionable insights and informed decision-making.

SENIOR FULL STACK DEVELOPER

BEON-IT | OCT 2019 - MAY 2025

- Designed and built Windows services for automation and scheduled tasks, enhancing operational efficiency and system reliability
- Implemented projects using the .NET technologies, and web applications using ASP.NET Core, HTML, CSS, Dapper, Linq, Bootstrap, DevExpress, other web technologies and methodologies
- Experience in integrating web services and applications with SAP Business One using SAP SDK and Service Layer
- Understanding business requirements and then translating it into functional and technical requirements
- Followed Agile methodologies and worked in Scrum teams, ensuring regular sprint planning, stand-ups, and retrospectives.

Education

- **MASTERS IN BUSINESS COMPUTER, LEBANESE UNIVERSITY 2020 – 2022**
- **BACHELORS IN COMPUTER SCIENCE, LEBANESE UNIVERSITY 2017 - 2019**

Skills
