SUMMARY

Computer Engineering undergraduate (LAU, expected 2027) with experience in C++/Java, web development (HTML/CSS/JavaScript), and relational databases (SQL/MariaDB). Built software projects and tutored 5+ students; seeking an internship in software, data, or embedded systems.

EDUCATION

Lebanese American University (LAU) — B.E. Computer Engineering
Minor: Economics
Relevant coursework: Data Structures, SQL & Database Systems.

TECHNICAL SKILLS

Programming: C++, Java

Web: HTML, CSS, JavaScript

Databases: SQL, MariaDB, Oracle Database

Concepts: OOP, Data Structures, ER modeling, Normalization

PROJECTS

Bidding Website (database-backed marketplace) — HTML, CSS, JavaScript, MariaDB
  • Built Buyer/Seller flows with listings, bidding, and purchase workflow; designed relational schema and queries in MariaDB.
University Tutoring Service System (course project) — C++, OOP
  • Developed a C++ application for students to find/register tutors, including listings and session management.
Hotel Management System — C++, OOP, JSON/file storage
  • Implemented room/customer management and bookings with persistent storage in a modular OOP design.

EXPERIENCE

Cybersecurity Intern — X7 Academy | 2025
  • Performed a 6-month Cybersecurity Internship at X7 Academy.
  • Learned about GIT, digital signatures, encryption, IAM and access management, and network security.
Account Manager — Moumneh Dental Polyclinic, Beirut | Summer 2022–Summer 2023
  • Handled billing and daily transactions; maintained accurate financial records and supported patient inquiries.

CERTIFICATIONS

Web Development (Front-end & Back-end) — 2024 | Basic Cybersecurity (Xpert Bot) — 2025
