PROFILE

A motivated and detail-oriented second-year Computer and Communications Engineering (CCE) student with a strong analytical mindset and a passion for technology. Recently graduated from high school, I am eager to expand my knowledge, develop practical skills, and adapt to the world of engineering. With a good communication and problem-solving skills, I thrive in collaborative environments while also working efficiently under pressure. I am seeking opportunities to gain hands-on experience and apply my academic foundation to real-world projects.
