Location: Mount Lebanon, Lebanon

## Summary

Computer Science & Math graduate/software engineer with experience in C#, Python, .Net, Django, React, Angular. Passionate about solving complex problems and building scalable solutions.

## Skills

- **Programming Languages:** VB.net, C#, Python, Java, C, PHP, HTML with CSS, XML, JS, TS.
- **Frameworks:** Laravel, Winforms, Django, Asp.net Core, FastAPI, React, Next, Angular, TailwindCSS, Bootstrap.
- **DBMS:** SQL Server, PostgreSQL, MySQL, SQLite.
- **Programs:** Tableau, Power BI, Microsoft Word, Microsoft PowerPoint, Excel, SPSS.
- **Financial Concepts:** Interest Rates, Time Value of Money, Bonds, Options, Cash Flows and NPV.
- **Tools:** Git

## Education

### Bachelor Degree in Computer Science

*Lebanese University, Faculty of Sciences* – September 2020 – July 2024

Relevant Courses: C Programming, Java OOP, Operating Systems, Databases, Frontend & Backend Web Development.

### Master Program of Teaching Mathematics for Secondary Level

*Lebanese University, Faculty of Education* – Oct 2019 – July 2021

Relevant Courses: Math Curriculum, Teaching Methodologies, Classroom Management, Technology in Education, Educational Psychology

### Bachelor Degree in Pure Mathematics

*Lebanese University, Faculty of Sciences* – September 2016 – September 2019

Relevant Courses: Algebra, Real Analysis, Numerical Analysis, Calculus

## Experience

### Full Stack Developer Internship

Brain Solutions- Hybrid – November 25 – Present

- Making a laravel Project with react & next
- Making Tasks in VB.net Winforms on System

## IT Technical Support

Brain Solutions- Onsite – September 25– October 25

- Installing sql server enterprise & management studio versions for customers.
- Installing ERP management System & POS for customers.
- Make a training for the customers on the ERP management system
- Querying database, and taking backups.

## Freelance Full Stack Developer

Remote — August 24 – Present

- **Laravel/Angular Project:** *Building a job-listing website with the laravel MVC and api for backend and angular ts for frontend.*
- **.NET Core Web API:** Built scalable API with controllers, dtos, services, repositories, filtering, sorting, login and sign up(jwt), portfolio CRUD operations, relations btw models.
- **.NET Core Web API With React/Angular Projects:** Developing websites with reusable components, robust state management, and interactive UI features, implemented product lists and messaging. Implemented ASP.NET Core api includes CRUD operations and .Net controllers, dtos, services, validated user input.
- **Python RESTful API (Django):** Built scalable APIs for customer data management with CRUD operations, advanced searching/filtering, and data sorting, asynchronous tasks, secure JWT authentication.

*Technologies used: Laravel, VB.net, Winforms, React, Next, Django, ASP.NET Core, Angular, Html, CSS, TS, JS, Bootstrap, TailwindCSS, Celery, Redis, JWT, REST API, MySQL, PostgreSQL, Sql Server.*

## Certificates

- C# Essential Training 1: Types and Control Flow Certificate, LinkedIn Learning, 2024
- Certificate of Attendance of Python Programming Bootcamp, LAU University, 2021

## Courses

- Data Analysis with Python, Coursera, 2025
- Courses about React JS, Databases, HTML, CSS and JavaScript, Google Gemini AI, Canva, Tableau, Time Management, Udemy, 2025
- A Practicum 1,2,3 Three Month Courses about Teaching and Lesson Planning, Lebanese University, 2020-2021

## Languages

English (Excellent), Arabic (Native language)
