NaderAlameddine

Choueifat, Lebanon

Professional Summary

Full-Stack developer specialized in React.js and JavaScript, with backend experience in Node.js, Express.js, and REST API development. Skilled in API testing using Postman and building scalable, user-focused web applications.

Skills

-
- **Core Stack:** React.js, JavaScript, TypeScript, HTML, CSS, Bootstrap, Tailwind CSS
 - **Backend & APIs:** Node.js, Express.js, REST APIs
 - **Databases & Tools:** PostgreSQL, SQL | Postman, Jest, Git/GitHub
 - **Awards & Certificates:** Software Engineering Excellence, University Expo Winner (Web Course)
 - **Additional:** PHP, C#, Python, Java | Teamwork, Communication, Problem-solving
 - **Languages:** English and Arabic.

Work Experience

Ipsos

Sep – Nov 2025

Data Reporting Analyst (Freelance)

- **Collaborated with a multi-member team** to ensure **quality control** and on-time delivery of dashboards and insights, strengthening communication and analytical problem-solving in a fast-paced environment.
- **Completed 14 reporting projects across 5 clients** by performing **data cleaning, validation, and transformation** in Excel and **Power BI**, improving reporting consistency and data accuracy.

PlaySonic

Jul – Sep 2025

Full Stack Developer (Train-to-Hire Program)

- Engineered frontend features using **React.js, JavaScript, HTML, and CSS**, creating responsive interfaces for **500+ users**, improving user experience through teamwork and frontend testing.
- Developed backend services and forms with **Node.js and Express.js**, integrated with the frontend, managed version control via Git, and performed API and backend testing, improving system reliability and **reducing errors by 30%** while supporting concurrent users.

Projects

Senior Dog Care Decision-Support Web app — In Progress

- Built a full-stack health monitoring platform using **React.js, Node.js, Express.js, and PostgreSQL** to manage dog health logs, medications, and care routines through structured data tracking and profile-based storage.
- Engineered **RESTful APIs and backend decision logic** to analyze activity, medication adherence, and behavioral patterns, triggering automated care alerts that reduce manual monitoring effort by an estimated **40%** and enable early detection of abnormal trends.

Intellicast News:

- Designed and developed a responsive AI-driven news platform using **React.js, Tailwind CSS, OpenAI API, and NewsAPI** to deliver personalized, real-time news summaries.
- Implemented dynamic tone- and mood-based summarization features, improving information retention by an estimated **50%** and reducing average reading time per article by **60%**.

Education

American University of Science and Technology

October 2021 – June 2025

Beirut, Lebanon - Bachelor in Computer Science
