Full Stack Developer

Next.js – React.js – TailwindCSS – Typescript – Javascript – RTK Query – User Interface – User Experience – Responsive Design – Search Engine Optimization – API Integration – Express.js – MongoDB – Jira – Prompt Engineer

SUMMARY

Full-Stack Developer with 2+ years of experience building scalable, user-friendly web applications. Skilled in structuring and maintaining clean, consistent codebases, integrating frontend and backend systems, managing state with Redux, RTK Query, and efficiently incorporating AI into development workflows within teams.

Key Competencies

Fullstack – Backend – Problem Solving – Data Structures & Algorithms – Responsive Design – Git, Github – Clean Code – Search Engine Optimization – User Interface – User Experience – RESTful API Integration – Team Collaboration – AI Prompting

Professional Experience

TechTalks, Web Development Internship

Nov. 2025 – Dec. 2025

Led the development of **ECoNet**, a full-stack website that connects event-focused communities with organizers, simplifying event discovery and booking while fostering community engagement through a unified, user-centered experience.

- **Maintained** the overall project structure to ensure scalability, and long-term maintainability using **RTK Query**.
- **Ensured** UI and UX consistency across the entire website using **TailwindCSS** and **Framer Motion**.
- **Implemented** and **maintained** multiple core features as a full-stack developer using **Next.js**.
- **Distributed** tasks among team members using **Jira** and coordinated progress using **Git** and **GitHub** workflows.
- **Applied** AI tools effectively to optimize development workflow and productivity.

Bitwise Club, Lebanon Nabatieh, Website Manager

Mar. 2025 – Present

Bitwise, founded in 2024 by Master students. We cover a range of fields helping members gain **real-world** experience.

- **Built** and **deployed** a website for the club, increasing club visibility and helping over **70+** students access resources, event schedules, and news updates, and contributing to logistics, idea development and team decision-making.
- **Collaborated** with team members to design an intuitive user interface by choosing theme, fonts, images.

Projects

Bitwise Website – [Live Site](#)

Mar. 2025 – Present

Reactjs, TailwindCSS, Redux, Expressjs, MongoDB, JWT

- **Developed** a full stack web application to showcase club details, and announce events with responsive interface.
- **Implemented** an admin panel to manage site content efficiently.

Adea Website – [Live Site](#)

July. 2025 – Aug. 2025

Reactjs, TailwindCSS, Typescript, Expressjs, MongoDB

- **Built** and deployed a production-ready web platform for selling categorized AI tools using React, TypeScript, Tailwind, Express, and MongoDB.
- **Implemented** an admin dashboard for managing categories, AI links, and user access requests.
- **Delivered** a responsive, user-friendly interface optimized for performance and maintainability.

Education

Bachelor of Computer Science (CS) | Lebanese University

Sep. 2024 – Present

Additional Information

Computer: C++/C | Python (with Pandas, Tkinter) | Lua (with LOVE 2D)

Languages: Arabic (Mother Tongue), English (Fluent)
