OBJECTIVE: Seeking a **technical role** in an innovative environment.

About me: I am an electrical engineer with experience in digital transformation.

My greatest strength is understanding both the machines and people.

I have a talent for going deep while staying efficient.

I am passionate about driving results, and I value continuous learning, and self-improvement.

EDUCATION

From 2018 to 2022	Istanbul Aydin University Master's in electrical engineering (incomplete) <ul style="list-style-type: none">● Focused on subjects such as Machine Learning, Radar Systems, Microwaves, electromagnetics, power systems.● Engaged in research and development projects, expanding technical knowledge across multiple engineering disciplines.● Participated in an entrepreneurial startup competition, working on a prototype for cashier less stores in the Middle East	Istanbul, Turkey
From 2013 to 2017	Near East University Bachelor's in electrical engineering <ul style="list-style-type: none">● Concentrated on Telecommunications, electromagnetics, and control systems.● Gained foundational knowledge in circuits, power grids, and electrical safety	Nicosia, N.Cyprus
From 2010-2013	Khalifa Bin Zayed Institute Baccalaureate Technique in Electricity <ul style="list-style-type: none">● Completed 3 years of technical training in electrical systems and machinery, preparing for further academic studies	Sidon, Lebanon

Continuous Learning

Planned Q1 2026	Google Project Management Professional Certificate AWS Certified Solutions Architect - Associate
August 2025	AWS Certified AI Practitioner Earners of this badge understand AI, ML, and generative AI concepts, methods, and strategies in general and on AWS. They can determine the

correct types of AI/ML technologies to apply to specific use cases and know how to use AI, ML, and generative AI technologies responsibly.

June 2025

AWS Certified Cloud Practitioner

Earners of this certification have a fundamental understanding of IT services and their uses in the AWS Cloud. They demonstrated cloud fluency and foundational AWS knowledge; they can identify essential AWS services necessary to set up AWS-focused projects.

EXPERIENCE

From Dec 2025 till Present

Graphic Design Freelance Part time | Up & Elevate

Remote

Working on creating ad creatives and printable for US based Dental clinics.

From Apr 2025 till present

Electrical As-Building | ITCAN Solutions

Sidon, Lebanon

Electrical Engineer at ITCAN Solutions, I am working on: Templates, Unique diagrams, Drafting within an electrical as-built project for a food & beverage giant factory located in Euskersion, Germany, Using Semens COMOS

From 2022 till present

Founder | Synan Web Solution

- Launched a custom web development company, delivering digital solutions tailored to client needs.
- Managed projects from inception to delivery, scaling operations through effective outsourcing and project management.
- Gained expertise in marketing strategies, client acquisition, and business leadership.
- Developed proficiency in various web technologies while leading diverse, high-impact projects.

From 2017 till present

Electrical Engineering Consultancy

- Provided consultancy on complex engineering projects across disciplines including renewable energy, IoT, and power systems.
- Applied coding skills to enhance system operations and automate processes, creating more efficient engineering solutions.

From 2020 till 2021

ERP Consultant | Water Bottling Facility

Niamey, Niger

- Led the development and implementation of an ERP solution for a water bottling facility.

- Worked closely with management to integrate inventory, production, and financial data into a unified system.
- Successfully navigated challenges related to infrastructure, team training, and system adaptation in a developing market.

From 2019 till 2020

Sales Associate | Real Estate

- Generated over \$1,000,000 in sales within 8 months by applying strong relationship-building and sales psychology skills.
- Collaborated with a high-performing sales team, refining negotiation strategies and enhancing client engagement.
- Developed marketing content and advertisements using Photoshop and digital tools, driving client interest and conversions.

SUMMARY SKILLS

Languages: Fluent in English, Native in Arabic & advanced level in Turkish

Electrical Engineering: Power systems, solar and renewable energy, electromagnetics, low-power systems, image processing, IoT, sensors, electric vehicles, and machinery, CAD, COMOS.

Web Development: surface level “HTML, CSS, JavaScript” frontend, WordPress, Good in Python, e-commerce, UX/UI design, and responsive development, web design through builders, Linux.

Sales & Marketing: Client relations, negotiation, sales strategy, sales funnels, digital marketing, ad creatives, and testing.

ERP Systems: Odoo, system integration, inventory management, production workflows, and financial systems.

Project Management: Business strategy, outsourcing, leadership, client engagement, and cross-cultural communication.

Interests: I am really into **backend development** as of lately
