Software developer with hands on experience in full stack development and quality assurance. Contributing to large scale applications while performing both manual and automated testing to structured QA processes. Focused on clean interfaces, scalable systems, and building dependable

Work Experience

AST 10/2025 - Present
QA Intern

- Led end to end QA and production testing as the sole QA resource across staging and production environments.
- Tested complex multi step workflows and critical modules used daily by hundreds of active users.
- Designed, documented, and executed 60+ structured test cases covering core functionality and edge scenarios.
- Reported defects with clear reproduction steps, tracked fixes, and verified resolutions before deployment.
- Coordinated directly with developers and stakeholders during releases to ensure production readiness.

Vanrise 03/2025 - 05/2025
Full Stack Developer Intern

- Developed a working reservation system using AngularJS, ASP.NET MVC, WebAPI, and SQL Server.
- Integrated backend logic with Entity Framework and Stored Procedures to handle business rules.
- Delivered authentication and system wide validation used by internal staff.
- Tested main workflows to ensure correct behavior before deployment.

Education

University of Balamand 07/2024
Bachelor of Science in Computer Science

Projects

Enterprise QA Testing Suite 01/2026

- Designed and executed structured test cases for multi step workflows in a production scale system.
- Built automated regression tests to reduce repeated manual testing.
- Identified edge cases and critical defects, improving release stability.
- Validated API behavior, data flow, and UI consistency across environments.

Ecommerce Platform 01/2026

- Built a full stack ecommerce site and tested checkout, authentication, and product management flows.

Skills

Quality Assurance:

Manual Testing, Test Case Design, Regression Testing, Bug Reporting, API Testing with Postman, Automation Basics, Debugging, Cross Environment Validation

Tools:

Selenium, Postman, VS Code, Chrome Dev Tools, GitHub, CORS

Development:

JavaScript, AngularJS, React, Node.js, C Sharp, ASP.NET MVC, SQL Server, MongoDB

Other:

Attention to Detail, Problem Solving, Requirement Analysis, Clean Documentation

Languages:

Arabic , English, German
