Professional Summary

Detail-oriented 3rd-year Computer Science student at **Antonine University** with a passion for building scalable web and mobile applications. Proficient in the **MERN stack** (MongoDB, Express, React, Node.js) and experienced in cross-platform mobile development. Seeking a Full Stack Internship to apply my technical skills in a professional environment and contribute to innovative software solutions.

Skills

- Languages: JavaScript (ES6+), Python, C++, Java, PL/SQL
- Frontend: HTML5, CSS3, React.js, React Native, Bootstrap
- Backend: Node.js, Express.js
- Databases: MySQL, MongoDB, SQLite, Oracle SQL (PL/SQL)
- Tools & Version Control: Git, GitHub, VS Code

Projects

Mobile Money Transfer Application | React Native, Node.js, SQLite

Leader

- Developed a cross-platform mobile app for peer-to-peer financial transactions.
- Built a robust backend using Node.js to handle transaction logic and API requests.
- Implemented secure local data persistence using SQLite for user account management.
- Designed a responsive UI following modern financial app standards to ensure ease of use.

Car Marketplace Web System | (React, MySQL)

Leader

- Engineered a full-featured web platform for vehicle buying and selling.
- Integrated a MySQL database to manage extensive car listings and user profiles.
- Created dynamic search and filter functionalities using React.js to improve user experience.
- Utilized Bootstrap to ensure a fully responsive design across mobile and desktop devices.

Education

Bachelor of Science in Computer Science | 3rd Year Expected 2027 Antonine University (UA), Lebanon

Sep 2023 - Sep 2027

Certifications

Machine Learning Course

NVIDIA Deep Learning Institute (DLI) Completed: 2025

Languages

Arabic

English
