

# KHALIL AUDEH

## Senior Front-End Developer | Full-Stack Developer

Lebanon | khalilaudeh361997@gmail.com | +961 71 648 099 | linkedin.com/in/khalil-audeh | github.com/khalilAudeh

### PROFESSIONAL SUMMARY

---

Senior Front-End & Full-Stack Developer with 6 years of experience architecting scalable web applications for international FinTech and E-commerce enterprises. Expert in React, TypeScript and Node.js with a proven track record of leading end-to-end feature development, optimizing performance and implementing microservices architecture. Seeking to leverage my technical expertise and cross-cultural experience in innovative digital transformation projects.

### WORK EXPERIENCE

---

#### Full-Stack / Front-End Software Developer

Zidlee, Lebanon

June 2024 – Present (Promoted to Full-Stack in October 2024)

- Lead end-to-end feature development across the full stack, architecting and implementing 10+ backend microservices with Node.js & TypeScript and integrating with React/TypeScript/Redux frontend applications serving 1,000+ monthly active users in a FinTech environment.
- Developed scalable frontend solutions by developing and maintaining 5+ React.js/TypeScript applications, implementing Redux Toolkit state management for complex financial applications with 50+ reusable components, streamlining data flow and reducing state-related bugs by 25%.
- Optimized system performance and security by reducing average API response time by 30% through complex database query optimization across MySQL/MongoDB, implementing FinTech compliance requirements, and integrating 20+ RESTful APIs with Axios interceptors for robust error handling and authentication flows.
- Improved application reliability by resolving 100+ critical production issues across development, staging, and production environments, reducing API call volume by 30% through smart caching and request batching, ensuring system stability and seamless user experience.

#### Front-End Developer

Red Acre Ltd, Malta

May 2022 - February 2024

- Engineered high-performance React/ TypeScript applications, improving Lighthouse performance scores from 75 to 90+ and reducing initial load time by 40% through advanced code splitting and lazy loading.
- Refactored 20+ legacy components to modern React/TypeScript functional patterns, reducing bundle size by 15% and implementing localization workflows for 5 language markets.
- Championed Agile ceremonies and led code reviews that identified and resolved 100+ critical bugs pre-production, improving team code quality metrics by 35%.
- Collaborated effectively within a self-managing, cross-functional team, maintaining brand consistency across all designs and delivering features ahead of sprint deadlines.

## **E-Commerce Front-End Developer**

**DISTRICT & SARA Group, Lebanon (GCC - Remote)**

**May 2020 - December 2021**

- Architected and delivered bilingual (EN/AR) e-commerce solutions serving 50,000+ monthly visitors across GCC markets, implementing custom Vue.js components and RTL CSS frameworks for seamless cross-cultural user experiences.
- Partnered with marketing departments to implement promotional campaigns that increased conversion rates by 18% during peak seasons through targeted landing pages.
- Developed 20+ high-converting landing pages and integrated with 15+ RESTful APIs, reducing bounce rates by 25% and improving page load speed by 40% via performance optimization.
- Orchestrated project delivery across 3 cross-functional teams by reducing project delivery time by 25% using Agile methodologies and consistently meeting deadlines for e-commerce releases.

## **Front-End Web Developer**

**PDPU Innovation & Incubation Centre, India**

**January 2019 - March 2019**

- Contributed to Windows application development in Java in an international team environment.
- Collaborated effectively with team members from diverse academic and cultural backgrounds, gaining valuable global perspective and adaptability skills.

## **EDUCATION**

---

### **Bachelor of Science in Computer Science**

**Lebanese American University, Beirut, Lebanon**

**2015 – 2018**

## **SKILLS**

---

- **Frontend Development:** React.js, TypeScript, Redux, Vue.js, HTML, SCSS, CSS, JavaScript, Vite, Responsive Design, RTL/Localization
- **Backend Development:** Node.js, TypeScript, RESTful APIs, Microservices, SQL/MySQL, MongoDB, Database Optimization, Authentication/Authorization
- **Tools & Methods:** Git, GitHub, GitLab, Jira, Agile, CI/CD, Axios, Performance Optimization, Code Review, Cross-Functional, System Architecture, Problem-Solving, Code Documentation

## **AWARDS**

---

- ULYP Scholar Certificate, Lebanon July 2019
- AIESEC Global Entrepreneur, India March 2019
- UNRWA Scholarship Award Certificate, Lebanon December 2015
