---

## PROFESSIONAL SUMMARY

---

**Computer Science graduate** with hands-on experience in **mobile and web development**, specializing in **Flutter, React, Firebase, SQL, and Python**. Experienced in building real-world applications including **delivery systems, healthcare apps, and e-commerce platforms**. Seeking an **entry-level role** in **Mobile Development, Web Development, Data/IT, or Software Engineering**.

---

## EXPERIENCE

---

### Full-Stack Developer

*SBC Dec 2025 - February*

- Enhanced and maintained a mobile application integrated with a **.NET-based POS system**, ensuring real-time inventory and sales synchronization.
- Extended a **barcode scanner app** to support real-time product addition, improving warehouse efficiency.
- Contributed to a **delivery application** featuring live GPS tracking for orders and drivers with Supabase .
- Collaborated within an **Agile team**, delivering feature updates, bug fixes, and UI/UX improvements.

### IT Support & Systems Technician

*Borderless NGO Jan 2025 – Feb 2025*

- Diagnosed, repaired, and maintained laptops and desktop systems for educational bootcamps.
- Assembled and configured PCs based on operational requirements.
- Troubleshoot software and hardware issues and assisted in managing networked computer labs.

### Mobile Developer Intern (Remote)

*XpertBot Apr 2025 – May 2025*

- Developed a **Flutter-based healthcare mobile app** connecting patients with nurses for appointments.
- Integrated **Firebase Authentication, real-time chat, and cloud database**.
- Built responsive UI, handled debugging, and generated APK builds using **Android Studio**.
- Implemented features such as **AI health assistant**, emergency location sharing, and appointment scheduling.

### Web Developer Intern (Remote)

*XpertBot Feb 2025 - Mar 2025*

- Built a **responsive e-commerce platform** for mobile and tech devices.
- Developed dynamic UI components using **React and JavaScript**.
- Designed and managed **SQL databases** for users and products.
- Implemented user authentication and basic backend logic.

---

## EDUCATION

---

### Computer Science Bachelor

*Beirut Arab University – Graduated May 2025*

Relevant Coursework: Data Structures, OOP, Algorithms, Artificial Intelligence, Cybersecurity, Database Systems

### Web Design Diploma

*Imaar training and development*

Front-end Development: Built responsive UIs with React, JavaScript, HTML, and CSS

## **IT diploma**

*Borderless NGO*

Gained foundational IT skills in networking and system administration

---

## **PROJECTS**

---

### **Personal Health Assistant App – Senior Project**

*Flutter, Firebase, Android Studio*

- Built a mobile app connecting patients with licensed nurses for consultations and appointments.
- Features include secure login, real-time chat, AI health assistant, emergency location sharing, and scheduling.
- Implemented full backend using Firebase (Auth, Firestore, Cloud Functions).

### **Tech Device E-Commerce Website**

*React, JavaScript, HTML/CSS, SQL*

- Developed a full-stack e-commerce website for selling mobile and tech devices.
  - Implemented user authentication, product management, and database operations.
- 

## **TECHNICAL SKILLS**

---

### **Programming & Development**

Flutter, Dart, JavaScript, React, HTML, CSS, Python, Java, C++, SQL, MySQL

### **Tools & Platforms**

Firebase (Auth, Firestore, Cloud Functions), Android Studio, Git, GitHub, WordPress

### **IT & Systems**

Hardware Assembly, System Configuration, Networking Basics, Troubleshooting
