PROFESSIONAL SUMMARY

Full-stack Software Developer with 1.5 years of experience building scalable web applications using React, TypeScript, and Laravel. Strong in RESTful API architecture, authentication systems, performance optimization, and feature ownership from planning to deployment.

TECHNICAL SKILLS

- **Frontend:** React, TypeScript, Flutter
- **Backend:** Laravel, Django, Spring Boot
- **APIs & Architecture:** RESTful APIs, Authentication, Webhooks, RBAC
- **Database:** MySQL
- **DevOps & Tools:** Docker, Git, JIRA, CI/CD
- **Languages:** JavaScript, PHP, Python, Java, C++

WORK EXPERIENCE

Junior Developer — Phoenix | Oct 2024 – Present

- Built and maintained scalable web applications using React, TypeScript, and Laravel.
- Designed and integrated structured RESTful APIs for web and mobile systems.
- Improved frontend data fetching and backend queries to enhance performance.
- Participated in feature planning, testing, debugging, and production deployment.

PROJECTS

- **Order Accounting & Tracking System — Django (Freelance):** Backend platform for a delivery company with automated financial reporting and scalable API design.
- **Delivery Mobile Application — Flutter (Freelance):** Cross-platform app with secure REST API integration and optimized order flow.
- **Doctor Management System — Spring Boot:** Role-based medical system with dashboards, reporting, and external API integration.

EDUCATION

Bachelor of Science in Computer Science
