## SUMMARY

Senior architecture student with a passion for creating spaces that connect functionality with aesthetic value. My academic work has allowed me to design projects ranging from small-scale residential concepts to larger urban studies, developing strong skills in AutoCAD, Revit, and visualization tools. I bring creativity, precision, and a collaborative mindset, and I am eager to contribute these strengths to a professional team through an internship opportunity.

---

## WORK EXPERIENCE

### **Junior Architect – 4Dimensions Engineering Consultants | Dubai ,UAE** July2024 - Sep 2024

- Developed detailed 2D architectural drawings using AutoCAD and prepared comprehensive Revit plans.
- Created high-quality 3D visualizations and renderings using Lumion and 3ds Max for client presentations.
- Attended client meetings and incorporated feedback into design revisions and project documentation.
- Prepared official drawings in compliance with UAE municipality regulations and standards.
- Coordinated plans and 3D models to ensure accuracy, consistency, and project readiness for construction.

### **Architectural Intern – DJE Company | Tripoli ,Lebanon North** Aug 2023 - Sep 2023

- Produced architectural 2D drawings in AutoCAD following the American system and company standards.
- Prepared mechanical and electrical drawings in coordination with architectural plans.
- Organized and formatted project files according to company templates and regional standards.
- Gained practical experience adapting designs to professional workflow and international documentation practices.

### **Architectural Intern – ZRG CONSTUCTION | Deddeh , Lebanon North** Aug 2022 - Sep 2022

- Assisted in executing architectural plans and adapting designs based on client feedback.
- Developed detailed interior layouts and elevations, including quantity take-offs (BOQ).
- Participated in site visits as a site architect to observe construction processes and understand practical implementation.
- Edited and refined plans to ensure accuracy, compliance, and alignment with client requirements.
- Gained hands-on experience in coordinating design details with on-site execution

### **Freelance Architectural Designer – Self-Employed | Lebanon North** 2020 - Present

- Prepared technical and execution drawings, including electrical and mechanical plans.
- Created 3D models and renderings using Revit, AutoCAD, and Lumion for client presentations.
- Conducted site visits to ensure design implementation aligned with plans.
- Produced documentation and plans in compliance with municipal requirements.
- Gained hands-on experience managing multiple projects from concept to completion.

- Contributed to a restoration project, assisting in site documentation, design detailing, and on-site coordination, gaining practical experience in heritage preservation.
  - Participated in a scanning project for earthquake-affected buildings, supporting structural documentation and assessment for rehabilitation planning.
  - Collaborated with local associations on community-focused social projects, supporting design, organization, and implementation of initiatives that improved public spaces and social engagement.
- 

## EDUCATION

### Master of Architecture (M1) – Lebanese University

- Relevant coursework: Advanced Architectural Design, Urbanism, Landscape Design, Sociology, Restoration, Construction Materials, Site Execution and BOQ, Project Management.
- Academic project: Designed diverse projects including affordable housing, landscaping schemes, telecommunication tower, co-working space, demonstrating versatility in urban and architectural design.

### Bachelor of Architecture – Lebanese University

- Relevant coursework: Architectural Design, Urban Planning, Sustainable Architecture, Building Construction, Landscape Design, Business & Project Management, Technical Drawing, Advanced Mathematics, Communication Skills.
  - Academic project: Hospital, residential compound, affordable housing, museum, sports complex, restaurant, demonstrating versatility in functional and aesthetic design.
- 

## ADDITIONAL INFORMATION

- **Technical Skills & Software:**
  - **Architectural Design & Drafting:** AutoCAD (2D & 3D), Revit
  - **3D Modeling & Visualization:** Lumion
  - **Graphic & Presentation Tools:** Photoshop, Illustrator, InDesign
  - **Technical & Construction Skills:** BOQ preparation, site coordination, construction documentation, technical drawing
  - **Project & Office Tools:** Microsoft Excel, PowerPoint, Word, basic project management
  - **Additional Skills:** Model making, architectural visualization
- **Languages:** Arabic – Native  
English – Fluent  
French – Fluent
- **Certifications:**
  - BIM / Revit Workshop – Order of Engineers and Architects Tripoli Training Center, 31 August 2024
  - Revit Architecture Intensive Training – Autodesk Authorized Training Center (Niqat Global), 10 February 2023 (30 hours)
  - NxL Youth Empowerment Program (Season 3) – Nestlé Needs YOUth, L'Oréal, Microsoft, Google, LinkedIn, 2023
