Leader of my village **Troup** : Leading a group of disciplined and talented scouts to have impact on society. Developed leadership, teamwork, and organizational skills through group projects ,events and a lot of camps.

EDUCATION

Bachelor degree in Computer Science — Lebanese University 2027 (Expected)

Courses: **Advanced C Programming**

Operating Systems :OS concepts, Linux commands, process/file handling

Web Development: HTML, CSS, JS , building static websites

Shell Scripting: writing scripts in Ubuntu/Linux (sh)

Others: online courses in several fields (python , network ...)

EXPERIENCE & PROJECTS

Responsive Gym Website with Interactive Features

Collaborated with a team to design and develop a fully functional gym website with a login page, hero section, gallery, shop, and coaches section.

Implemented responsive layouts and visually structured pages to ensure seamless user experience across devices. Added interactive features using JavaScript, including form validation, navigation behavior, and dynamic content. Applied front-end development principles, combining HTML, CSS, and JavaScript, while demonstrating effective teamwork and collaborative development.
