

SOKRAT AL KONTAR

Machine Learning Intern | Computer Science Student | Python & AI

Mtein, Lebanon | sokratalkontar294@gmail.com | +961 71863672 | www.linkedin.com/in/sokrat-al-kontar

PROFESSIONAL SUMMARY

Motivated third-year Computer Science student with strong programming skills and a focused interest in Artificial Intelligence and Machine Learning. Experienced in developing projects using Python and object-oriented programming languages including Java and C#. Familiar with data structures, algorithms, and problem-solving techniques. Seeking a Machine Learning internship to contribute to innovative AI solutions while expanding practical experience.

WORK EXPERIENCE

IT Assistant

Arab Open University

October 2025 – January 2026

- Provided technical support to over 100+ students and faculty members, resolving hardware and software issues efficiently.
- Installed, configured, and maintained computer lab systems, ensuring smooth daily operations.
- Assisted in troubleshooting network connectivity issues, reducing system downtime.
- Supported IT infrastructure maintenance, including system updates and software installations.
- Contributed to improving overall technical support response time within the department.

Telecommunications Intern

Ogero, Beirut, Lebanon

August 2025 – September 2025

- I participated in a structured internship program focused on telecommunications and network infrastructure.
- Supported network operations by assisting in system monitoring and basic troubleshooting tasks.
- Gained exposure to telecom technologies, infrastructure management, and service optimization processes.
- Collaborated with technical teams to understand large-scale network maintenance procedures.

EDUCATION

Bachelor of Computer Science- 3rd Year

Arab Open University, Antelias, Lebanon

February 2023 - Present

GPA: 3.3

SKILLS

- Programming Languages: Python, Java, C# ,C++, JavaScript, HTML
- Frameworks: .NET Framework, Web Development tools , Github
- Concepts: Object-Oriented Programming (OOP), Algorithms, Data Structures, Operating Systems, Software Engineering, Computer Organization & Architecture
- Other Tools: Microsoft Excel, Microsoft Word, Attention to Detail, Rapid Learning
- Developer Tools & Platforms: GitHub, Visual Studio
