# Kevin Assi

Software engineer, Java developer, Web developer(Frontend or Backend), IT

## PROFESSIONAL SUMMARY

---

Java developer specializing in building scalable backend solutions using Java Spring and Python to enhance application performance. Experienced in both frontend and backend web development, delivering user-centric and efficient software systems. Focused on driving innovation and continuous improvement to support dynamic IT environments. Freelance web developer with expertise in responsive design, API integration, and performance optimization to enhance client engagement and operational efficiency. Skilled in code review, debugging, and translating client requirements into scalable technical solutions. Focused on delivering innovative, high-quality web applications that drive user retention and business growth.

## WORK EXPERIENCE

---

### FREELANCE WEB DEVELOPER

Aug 2022 — Feb 2024

#### Freelance

- Develop custom websites and applications that improve client engagement through responsive design and optimized user interfaces.
- Integrate third-party APIs to extend functionality and streamline workflows, resulting in enhanced operational efficiency for clients.
- Perform regular code reviews and debugging to ensure high-quality deliverables and maintain application stability across multiple browsers.
- Collaborate with clients to gather requirements and translate them into technical specifications that align with business goals.
- Optimize website performance and loading times to improve user experience and increase visitor retention rates.

### SOFTWARE ENGINEER AND IT

Jun 2025 — Present

#### Old Oaks

- Developed and maintained backend services that improved application uptime and ensured reliable user access across multiple platforms.
- Implemented automated testing pipelines to increase code quality and reduce the incidence of defects in production releases.
- Configured and monitored network security protocols to safeguard sensitive data and maintain compliance with industry regulations.
- Collaborated with cross-functional teams to deploy scalable cloud infrastructure, enhancing system performance and flexibility under variable workloads.
- Diagnosed and resolved technical issues promptly, minimizing downtime and improving overall system availability for end users.
- Development of the entire Point-of-Sale System's Backend

## EDUCATION

---

### BACHELOR IN COMPUTER SCIENCE

Aug 2023 - Present

#### Lebanese American University

Byblos Jbeil Lebanon

## SKILLS

---

Java Spring(Expert), Python(Advanced), JavaScript, Responsive Design, API Integration, Database Management, Version Control, Cloud Computing, Debugging, Agile Methodologies, System Architecture, Continuous Deployment, Object-oriented programming, RESTful services, Build automation, Cross-browser compatibility, Performance optimization.

## LANGUAGES

---

English (Native), Arabic (B2 - Upper intermediate), French(B1 - Intermediate).
