

Naveed Sohail Gung

Full-Stack & Infrastructure Engineer

Beirut, Lebanon | +961 76986034 | naveedsohail@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-Stack & Infrastructure Engineer with production ownership across custom ERP systems, enterprise web, cybersecurity tooling, and AI-powered applications. Currently at Auvia Groups on extended contract — architected and shipped a fully custom ERP + LMS from scratch, no off-the-shelf platforms. Built real security infrastructure: container threat detection using eBPF, Rust, and Go; kernel-level anomaly detection in C. Senior-grade in JavaScript ecosystems (MERN/MEAN/FERN), with growing depth in .NET/Blazor and enterprise infrastructure. Native Arabic speaker. Open to relocating to UAE, GCC, or EU.

EXPERIENCE

Full-Stack & Infrastructure Developer

Aug 2025 – Present

Auvia Groups — Beirut, Lebanon

- ▶ Joined as frontend & mobile intern; promoted to extended contract on few active enterprise client projects (NDA).
- ▶ Built a fully custom ERP system and LMS from scratch — no off-the-shelf platforms — with complete full-stack ownership including architecture, backend logic, database design, and frontend, with full bilingual support (Arabic RTL / English LTR) and dynamic layout switching.
- ▶ Delivers full-stack modules using C#, Blazor — from requirements to production deployment with scalable backend architecture and REST APIs.
- ▶ Owns infrastructure setup, business logic analysis, cybersecurity R&D, QA on production systems, and technical documentation. Peer code reviews.

MERN Stack Developer

Feb 2025 – Apr 2025

ITSC — Remote

- ▶ Delivered 2 full-stack web applications independently (frontend + backend), including admin dashboards and an LMS.
- ▶ Covered REST API design, database modeling, code reviews, QA, and technical documentation end-to-end.

Freelance — PWR Store

2025

Client Project

- ▶ Built a full-featured e-commerce platform for digital products using React, TypeScript, Tailwind, and Vite — subscriptions, multiple pricing tiers, SEO enhancements (dynamic meta tags, sitemap generation).
- ▶ Implemented shopping cart, wishlist, dynamic routing, Context API state management, lazy loading, code splitting, PWA capabilities, and full bilingual support (Arabic RTL / English LTR).
- ▶ Developed responsive, animation-rich UI using Framer Motion and modern UX patterns.

PROJECTS

Security & Infrastructure

- ▶ [ZERO-DAY-GUARDIAN](#) — Real-time container threat detection system with automated defense response and forensic evidence collection. Built to address the gap between detection and reaction time in Kubernetes environments — identifies, isolates, and documents threats without human intervention. Java · Go · Rust · eBPF · Kubebuilder
- ▶ [S.T.A.R \(System Threat & Anomaly Radar\)](#) — Kernel-integrated cross-platform threat detection: rootkits, memory anomalies. C · Electron · WebGL · SQLite
- ▶ [E.MAT — Modular cybersecurity analysis framework](#) — Modular cybersecurity analysis framework with CLI, desktop GUI, and web interfaces — designed so analysts can run the same analysis workflow across environments without reconfiguring tooling. Python
- ▶ **AI & Mobile**
- ▶ [Jenny](#) — 3D AI Avatar Chat: real-time conversations, TTS, Blender visuals. React · Three.js · Node.js · MongoDB
- ▶ [Nova](#) — Multilingual AI voice assistant (English, Arabic, French). React · TypeScript · Tailwind
- ▶ [EmotionSense](#) — Real-time facial emotion/age/gender detection. Flutter · TensorFlow Lite · Google ML Kit

Web & Full-Stack

- ▶ [EduFlow](#) — Full-stack e-learning platform with course management, video streaming, assessments, real-time progress tracking. MERN Stack
- ▶ [Elite Showroom](#) — Luxury car showroom with Blender visuals & glassmorphic UI. React · Three.js · React Three Fiber · Zustand · Blender
- ▶ [Code-Playground](#) — Multilingual browser-based IDE letting developers write, run & preview code in real-time.

CORE COMPETENCIES

Languages: JavaScript · TypeScript · Python · C# · C · Dart · Java · PHP · Bash · Go · Rust

Frontend & Mobile: React · Nuxt.js · Angular · Blazor · Flutter · React Native · Three.js · Tailwind CSS · Framer Motion

Backend & DB: Node.js · Express · ABP Framework · MongoDB · PostgreSQL · MySQL · Firebase · SQLite

Cloud & DevOps: Docker · AWS · Azure · Firebase · GitHub Actions CI/CD · Linux · Nginx · Netlify · Render · PM2

Security & AI: Threat modeling · Container security · eBPF · Penetration testing · RAG · AI Agents · ML integration · Odoo ERP

Languages (Human): Arabic (Native) · English (Fluent) · Urdu (Fluent)

EDUCATION & CERTIFICATIONS

EDUCATION

B.S. in Management Information Systems

MUC College — In Progress (2026)

Technical Diplomas

HBC / CIS College — IT & MIS tracks

CERTIFICATIONS

Full Stack Web Development — Johns Hopkins / Coursera

AWS Technical Essentials · Fargate · Containers — AWS Training

JavaScript · Python · C# — FreeCodeCamp

Foundational C# with Microsoft — FreeCodeCamp

Cybersecurity Fundamentals — Cisco Networking Academy

PreSecurity — TryHackMe

Claude Code in Action · Intro to Subagents — Anthropic
