Objective

Full-Stack Software Engineer with hands-on experience building and shipping production systems across fintech, e-commerce, and AI-driven products. Proficient in React, TypeScript, Python, FastAPI, and Firebase. Experienced integrating third-party services, designing RESTful APIs, and working alongside AI systems. Actively involved in technical communities and leadership initiatives.

Experience

Freelance Full-Stack Developer

Remote | August 2025 – Present

- Designed and built a full-stack e-commerce platform using **React** and **Firebase/Firestore**, deployed to production on **Vercel**.
- Integrated **Stripe** payments, **SendGrid** email automation, and **Quiqup** delivery API for real-time order tracking and logistics.
- Optimized Firestore queries and frontend rendering performance to improve scalability and responsiveness.

Software Engineer Intern

Valigate, Forn El Chebbek, Lebanon | December 2025 – March 2026

- Evaluated **AI assistant** behavior and response quality, identifying model limitations and documenting failure patterns to improve reliability.
- Built and refined React frontend components integrated with **RESTful APIs** to support core product functionality.
- Contributed to **FastAPI** backend development, implementing service integrations and supporting API endpoints.
- Collaborated with **UI/UX** designers to translate **Figma** prototypes into production-ready features.

Full-Stack & QA Intern

CoinQuant, Beirut Digital District, Lebanon | July 2025 – December 2025

- Built FastAPI endpoints to manage beta user access control and integrated them with **Slack** for real-time signup notifications and SendGrid for automated approval emails, streamlining the beta onboarding workflow.
- Integrated webhooks and third-party services (**Slack, SendGrid, Zapier**) for automated notifications and workflow orchestration.
- Designed and executed API testing scripts in **Python** and **JavaScript** to validate fintech infrastructure reliability.

Full-Stack Developer Intern

Two Of Us, Lebanon | July 2024 - December 2024

- Developed a full web application using the **MERN Stack**, React frontend, Node.js/Express backend, and MongoDB database.
- Improved UI responsiveness and optimized backend operations, contributing to system performance and scalability.
- Collaborated in a cross-functional team to maintain code quality and reliability across the codebase.

Education

Bachelor's Degree in Computer Science, Lebanese University, Faculty of Science, Hadath | 2022-2025

Samsung Innovation Campus, program focused on **AI and software development**. | 2025

Aspire Leaders Program Graduate and Alumni, Harvard Business School, Remote | 2025

MERN Stack Bootcamp, Techlarious, Lebanon | 2024

Community & Volunteering

UNDP YLP Member | IEEE CS TechX Ambassador | Semicolon Academy Ambassador | ZAKA AI Ambassador | LUF51 Cybersecurity Community Organizer | Volunteer at INJAZ Lebanon, Pure Heart Foundation & Centre Mine | IEEE Member

Skills

Frontend: React, TypeScript, JavaScript, Angular

Backend: Node.js, Express, FastAPI, Python, PHP, Laravel

Databases & Cloud: PostgreSQL, MongoDB, Firebase, Supabase, Vercel

Testing & QA: API Testing, Test Automation, Backend Testing, Python Testing Libraries

Soft Skills: Leadership, Problem-Solving, Public Speaking, Team Collaboration, Critical Thinking

Other Tools & Tech: Java, ASP.NET, C, AWS, LLM API Integration, Langfuse
