---

## WORK EXPERIENCE

### Full Stack Developer | Accord Business Group (ABG)

February - Present, 2025

- Leading a project from scoping requirements to dividing tasks and driving delivery.
- Develop Spring Boot REST APIs (CRUD, pagination, validation) and consume them in Angular components.
- Model domain entities and repositories based on database tables; implement controllers and DTOs.
- Verify and document endpoints using Postman; inspect and troubleshoot data via DBeaver.
- Containerize services with Docker; collaborate using Git and code reviews.

### Intern, IT Dev Team | MUREX

June - August, 2023

- Collaborated on writing integration tests for various API tools.
- Strengthened C# skills and REST API understanding through hands-on work.
- Learned CI/CD processes and their role in development.

### Intern, Software Department | Liban Cables (Nexans), Naher Ibrahim

July-August 2022

- Developed a private company application using a provided database.
- Designed optimized database schemas and stored procedures with SQL.
- Built user-friendly interfaces in C# (Visual Studio).

### Intern, Hardware Department | Liban Cables (Nexans), Naher Ibrahim

July-August 2021

- Diagnosed and resolved hardware issues in PCs and printers.
- Used diagnostic tools to troubleshoot and pinpoint failures.

---
