Online/Anchor ventures Holding

2021 - Present,

Australia and Lebanon

Private holding company and manages a global portfolio of businesses present across virtually all key sectors. AVH drives prosperity in an uncertain world with its unique mix of industry

## SKILLS

Php

React js

React Native

Angular Js

Html

Css

Js

My Sql

Rest Api

## PERSONAL PROJECTS

FINAL YEAR PROJECT IN LEBANESE INTERNATIONAL UNIVERSITY

University Attestation System (2020)

- This project was aimed to design an attestation system that can not only enhance efficiency, but also make university sign-up easier. Every student in the country must have a learning guarantor, and in the particular case of students coming from public sector backgrounds, the university must provide the army with documentation for proof of funds. By only using a student ID, this system fills in all the requisite data needed to be sent to the required public body. Result Achieved: 90%

## CERTIFICATES

Cisco IT Essentials and CCNA1 Routing and Switching (2019)

## LANGUAGES

Arabic

Native or Bilingual Proficiency

English

Professional Working Proficiency

*expertise and digital prowess, powered by a vast global partner network.*

#### *Achievements/ Tasks*

- Receive projects in figma and applying to them design by using React js for websites and React Native For Mobile Applications.

For example: <http://45.9.190.133:3009> <http://45.9.190.133:3008>

- Apply backend Api js for design of websites and mobile Applications that I have been created.
- Onboarding new recruits, and assigning tasks while monitoring their work and solve their coding problems.
- Creating Backend by using RestApi js and Frontend by using React js for Websites. For example:  
<https://github.com/Lamasolh/Olinio-website.git>
