Summary

Computer Engineering graduate with a GPA of 3.5/4.0 and hands-on experience in full-stack web development. Seeking a Software Engineering role where I can contribute my skills in PHP, Laravel, JavaScript, and networking to build efficient, user-focused solutions while continuing to grow professionally.

Academic Projects

Instagram Clone

- Built a web app replicating Instagram features design—photo uploads, likes, and comments.
- Created with a responsive UI with HTML, CSS, and JavaScript.

Healthcare Website (Senior Project)

- Developed a healthcare platform for patient registration, appointment booking, and doctor directory.
- Integrated a chatbot using PHP and MySQL to answer user FAQs.
- Enabled job applications for medical professionals.
- Technologies used: HTML, CSS, JavaScript, PHP, MySQL, Bootstrap.
