LinkedIn: Ghina Sardouk

Computer science graduate

Software developer and Technology researcher.

Motivated to developing AI-powered software solutions.

Education

Jinan university

09/2022 - 06/2025

Bsc Computer Science - 3.2

Projects

Daily Recipe Manager Web application

02/2025 - 05/2025

- (Track and manage daily food calories for healthier life)
- <https://github.com/ghinasard/gradproj.git>

Smart Parking system(Arduino)

06/2024 - 06/2024

- Developed an Arduino-based smart parking system where the gate opens automatically upon vehicle detection using sensors

Technical Skills

- Programming Languages : Java, JavaScript, Matlab, Python, PHP
- Framework: React.js, Express.js, Node.js, PostgreSQL,MySQL
- ML/AI Tools: Matplotlib, Pandas, Numpy, Scipy, computer vision
- Robotics :Arduino and Tools(sensors, buzzers, servo motors and LEDs etc..)

Soft Skills

- Time management
- Fast learning
- Problem solving
- Active Team member
- Languages: Arabic, English, French

Certificates and Experience

- 5 months AWS re/start program
- AWS Cloud practitioner
- 3 month online Internship Machine Learning from Yasmin.AI
- Cyber Security CTF program from Semicolon Acedemy
- 1 week workshop titled "Teacher Preparation: Teaching Methods and Classroom Management" from Fares center
- Intoduction to WordPress from EduTech.lb
- Certificate of Completion "Element of AI" program from Helsinki university
