

# SHARI BAYDOUN

Beirut, Lebanon • +96176161112 • sharibaydoun66@outlook.com

---

## SUMMARY:

Aspiring full-stack developer with practical experience in building and maintaining web applications. Skilled in backend and frontend development, database management, and creating responsive user interfaces. Experienced in developing RESTful APIs, working with relational databases, and collaborating in teams to deliver scalable, maintainable solutions.

---

## WORK EXPERIENCE:

### Software Development Intern, Born Interactive

Jan 2026 – Apr 2026

- Developed and maintained a .NET web application with product listings, transactions, orders, and cart functionality.
- Built backend services using C# with Entity Framework and SQL Server (SSMS).
- Designed responsive frontend using Razor, HTML, CSS/SASS, JavaScript, and Bootstrap.
- Developed a full-stack website (Agrimatco) using .NET and SKWID CMS, including backend logic and custom portlets.

### Software Development Intern, Softwarezz

May 2025 – Jul 2025

- Built a full-stack CRUD app using React and Spring Boot, with mobile number verification via external API. Integrated Keycloak and Spring Security for authentication and authorization.
- Developed and maintained backend features on real-world telecom system (Te Ways).
- Cloned and deployed the company's platform using Docker and WSL (Ubuntu).

### Software Development Intern, Areeba

Feb 2025 – Apr 2025

- Developed Java Spring Boot library management system integrated to a card management system using microservices architecture linked to PostgreSQL database.
  - Worked on Onboarding Microservice under Verto Project, improving functionality and fixing bugs.
  - Integrated SonarQube to identify and resolve code issues.
- 

## EDUCATION:

Bachelor of Engineering in Biomedical engineering - Beirut Arab University CGPA: 3.38

2020 - 2024

Foundations of Computer Science (FCS) Bootcamp - SE Factory

Sep 2025 - Dec 2025

• Covered algorithms, data structures, OOP with Python, web development (HTML, CSS, JavaScript, PHP, SQL).

---
