☒ Objective

Motivated AI & Software Developer seeking a junior position to apply expertise in full-stack development, API integration, and database management. Passionate about building efficient, scalable, and AI-driven applications.

☒ PROFILE SUMMARY

Software development enthusiast with strong problem-solving skills and hands-on experience in React, PHP, Laravel, and MERN stack. Experienced in API integration, databases, and full-stack applications. Passionate about AI, automation, and scalable solutions, with proven ability to deliver user-friendly systems.

EDUCATION

Bachelor's in Computer Science – le CNAM (2022 - 2026)

Mechanic industriel: *institut technique EDDE: License Technique (LT)*

☎ PROJECT EXPERIENCE

CNAM Library- Website Project

- Led the development of a university library management system using **PHP** and JavaScript, integrating APIs and a robust database to streamline operations.
- Designed and implemented features for book cataloging, user management, and borrowing systems, ensuring an efficient and user-friendly experience.

Contact Management System - Application Project

- Led the development of a contact management system using React, integrating APIs to enable seamless data retrieval and synchronization.
- Designed and implemented features for contact creation, editing, and search functionality, ensuring a responsive and user-friendly interface.

☒ Relevant Coursework & Internships

- MERN Stack Internship – Fadi Zahhar (2023)
- PHP & Laravel Project – ExpertBot Internship (2025)
- Java Design Patterns | Automation | Project Management | Marketing Strategy(udemy)
- Full Stack Development | Microsoft Office Suite

PROFESSIONAL EXPERIENCE

Eurisko – Software Academy (2025)

- Worked on AI-driven and web-based projects with API integration.
- Collaborated in team projects using Git/GitHub & Agile methodology.

Liban Cables Nexans – Operator (2024, 6 months)

- Operated and monitored industrial systems.
- Gained experience in automation, ERP data entry, and process optimization.

Network Café – Owner & Technician (2019 – 2025)

- Managed LAN setup, troubleshooting, and system maintenance.
- Provided technical support for gamers and users, improving customer satisfaction.

Kazzi Nuts – Operating Manager (2021 – 2022)

- Assisted in production operations and machine monitoring.
- Supported digital marketing efforts (social media content & newsletters).

☒ **Technical Skills**

- ✦ Programming: Python, PHP, JavaScript, React, Laravel, MERN Stack
- ✦ AI & Data Science: TensorFlow, Scikit-learn, OpenAI API
- ✦ Databases: MySQL, MongoDB, SQL Server 2019
- ✦ APIs & Backend: REST APIs, FastAPI, Node.js, Flask
- ✦ Tools & Platforms: Git/GitHub, Docker, VS Code
- ✦ Networking: LAN/WAN troubleshooting, system maintenance
