Profile

Motivated Communication and Computer Networks Engineering student seeking an internship opportunity to apply academic knowledge in software, networking, and embedded systems within a practical engineering environment. Eager to contribute to real-world projects while developing technical and professional skills.

Education

Lebanese University, Faculty of Technology branch 2(Aabey)
Bachelor of Science in Computer and Communication Networks Engineering
(September 2024 --> September 2027)
Irfan School Semkanieh Chouf, Lebanon
Lebanese Baccalaureate, General Sciences (Grade 12)
Year of Completion: 2024

Skills

Develop software applications using C, C#, Python, and SQL
Design and integrate backend services and system components
Apply analytical thinking to solve engineering problems
Collaborate effectively and communicate technical ideas clearly
Manage multiple tasks and adapt quickly to new technologies

Academic Projects & Activities

Tech Talks Company (online) Smart Outlook Mail Organizer , January 2026-March 2026
Developed an intelligent email management system designed to summarize, categorize, and prioritize Outlook emails. Contributed to backend API development for processing email content (subject, body, sender) and participated in integrating frontend and backend components to deliver a complete functional solution.

Completed hands-on laboratory work at university covering digital logic circuit design (74-series TTL), PIC microcontroller programming in Assembly, and networking experiments involving network configuration, protocol analysis, and troubleshooting.(University labs)

Actively engaged in practical engineering coursework involving software development, system design, and electronics experimentation. Collaborated on technical tasks and applied analytical problem-solving methodologies.(Online courses)

Training Experience

Codveda Technologies, Web development trainee (online)
Completed web development training focused on responsive design, frontend-backend integration, and practical application development.
December 2025

Professional Membership

Institute of Electrical and Electronics Engineers (IEEE)
IEEE — Student Member
Faculty Branch at Lebanese University
2026 — 2030

Languages

Native speaker in Arabic , Fluent in English
