PROFILE

Software Developer specializing in **Flutter/Dart** with experience across **front-end**, **backend**, and **database design**. I enjoy building **clean**, **efficient**, and **user-focused** applications, **improving performance**, and **solving complex problems** with scalable solutions. Alongside my software expertise, I have broad knowledge of **laptops** and **mobile devices** — from setup and maintenance to performance optimization — which strengthens my ability to troubleshoot and support diverse technical environments. I am also adaptable and capable of working with any other software tools or platforms as needed, bringing a disciplined, detail-oriented mindset and a passion for continuous learning to every project.

PROFESSIONAL EXPERIENCE

Front-End Developer (Flutter / Dart) — iTech Business Solutions

2024 – 2025

- **Developed** cross-platform mobile UI using **Flutter** and **Dart**.
- **Implemented** state management and unit/widget tests, increasing code coverage.
- **Collaborated** with designers to enhance UX and reduced user-reported bugs.

Damascus

Fitness Trainer (Bodybuilding Coach)

2023 – 2026

- Trained and coached clients in bodybuilding techniques and fitness programs.
- Designed personalized workout plans and nutrition guidance to help achieve physical goals.
