WORK EXPERIENCE

DATA ENTRY

WeDeliver (Jan 2024 - Feb 2025)

- Accurately processed and maintained large volumes of operational and delivery data, ensuring consistency and reducing errors across the platform.
- Collaborated closely with operations and customer support teams to resolve data discrepancies quickly and efficiently.
- Utilized strong computer proficiency to streamline daily tasks and improve data organization workflows.

SALES

Sultana Tech (Sep 2025 - Nov 2025)

- Assisted customers in selecting mobile devices and accessories, providing clear explanations of technical features and benefits.
- Delivered excellent customer service by resolving product issues and answering technical questions.
- Supported inventory updates and device setup, contributing to smooth store operations.

CARGO

Air France Cargo Beirut Airport (Dec 2025 - Feb 2026)

- Coordinated import freight operations with accurate documentation control and assisted in export handling to support seamless cargo movement.
- Operated and managed ULDs and cargo handling procedures, ensuring compliance with safety and operational standards.
- Demonstrated strong team collaboration and fast system learning ability, contributing to efficient workflow in a high-pressure logistics environment.
