PROFILE

Passionate Full-Stack Web Developer specializing in modern JavaScript ecosystems and Laravel backend development. Experienced in building scalable, responsive, and user-focused web applications using Next.js, React, and PHP frameworks. Strong understanding of state management, clean architecture, and UI systems.

WORK EXPERIENCE

- Netflix Clone - 'Betflix': Built with Next.js, Tailwind, and Zustand. Features dynamic movie browsing UI, authentication, state-managed watchlist, and responsive modern design.
- Weather Web Application: Integrated real-time weather API with city search functionality and clean responsive interface.
- Phone E-Commerce Website: Built with Laravel backend. Includes product listing, filtering admin dashboard, CRUD operations, authentication, and order management.
- Gym Workout Platform: Multi-page PHP application with user authentication, program dashboards, and admin management system.
