-

INTERSHIPS

Network Operations Center (NOC) Intern : BMB Group – Lebanon (6 months)

- Monitored enterprise network infrastructure and ensured high availability of switches and network devices.
 - Detected and analyzed switch outages using network monitoring and diagnostic tools.
 - Performed Layer 2/Layer 3 troubleshooting to identify root causes of connectivity issues.
 - Logged, documented, and escalated incidents following standard incident management procedures.
 - Communicated directly with clients to report outages, provide status updates, and coordinate resolution efforts.
-

EXTRACURRICULAR ACTIVITIES

- Regular learner on FreeCodeCamp and Udemy courses for continuous web development and programming skill improvement
- Active learner at XpertBot Academy, completing training in Software Development to strengthen practical and technical skills.
