Summary:

Computer Science graduate with experience in software development, telecommunications, and database management. Currently building applications at Unilog while managing telecom systems and databases for the Internal Security Forces.

Experience:

- **Software Developer**, Unilog, Hazmieh. *(Jan 2025 – Present)*
Developing enterprise software in C# .NET, creating several Windows Forms applications and integrating them with the ERP system, with support for database management, reporting, and business process automation.
- **Intervention Group Chief – Internal Security Forces**, Beirut. *(Nov 2022 – Present)*
Responsible for operations, with a role in database management.
- **Cadet Officer – Military Academy**, Hazmieh. *(Nov 2018 – Aug 2021)*
Achieved 2nd overall among 164 cadets during my tenure at the military academy.

Projects:

- **Flash Chat – Flutter x Firebase Cloud Firestore:**
Built a real-time chat app with Flutter and Firestore featuring instant messaging, user authentication, and live message updates. Integrated Firebase Auth and cloud-hosted data streams for seamless communication across devices.
- **Sports-shop Website:**
Developed a dynamic e-commerce platform handling over 100 daily transactions using HTML, CSS, and JavaScript with server-side functionality using PHP.
- **Service Members Database Management – Internal Security Forces:**
Managed a secure database for service members' records, ensuring data accuracy, confidentiality, and secure access while generating 150+ monthly reports for administrative and operational use.

Education:

- **Bachelor's degree in Computer Science**, CNAM, Beirut. *(Sept 2022 – July 2025)*
- **Bachelor's degree in Military Sciences**, Military Academy, Hazmieh. *(Nov 2018 – Aug 2021)*
Specialized in military communications and telecom systems.
- **Lebanese Baccalaureate in General Sciences**, Besancon, Baabdash. *(2007-2018)*
Graduated top of class.

Skills & Languages:
