PROFESSIONAL SUMMARY

Lead Developer combining leadership and full-stack expertise across various web technologies, specializing in Angular, Node.js, Firebase, and Google Cloud Platform (GCP).

CERTIFICATES

- AWS Certified Developer – Associate (DVA-C02), Amazon Web Services - [View Certificate](#).
- VMware Spring Certified Professional 2024 - [View Certificate](#).
- OnRamp Advanced Full Stack Development with AI - [View Certificate](#).

WORK EXPERIENCE

NAHAUS.DE

Germany (Remote)

Lead / Full-Stack Developer - Angular, Node.js, Firebase, Google Cloud

Nov 2023 - Present

- Turn property management challenges into powerful digital solutions.
- Onboard and mentor new developers through task assignment, code reviews, and knowledge-sharing meetings.
- Directed migration from **Angular 15** → **16**, ensuring **100%** stability and boosting platform performance.
- Optimized search by upgrading **Algolia** integration, cutting monthly requests from **10,000** → **200**.
- Engineered Google Drive-style file management (full folder/files organization) enabling seamless document handling.
- Integrated external email hosts (**SMTP**, **Gmail**) with **Nodemailer** + **IMAP/Gmail API**, empowering full in-app email functionality.
- Automated key workflows to significantly enhance user experience and efficiency.

Skills: Angular, Node.js, Firebase (NoSQL DB), Google Cloud platform (GCP, Firebase Cloud Functions), Google APIs, NodeMailer, Angular material, TailwindCSS, SASS, Trello, GitHub, SourceTree, Typescript, Agile environment, Teamwork, Automation & Workflow Optimization, Mentoring & Onboarding, UX Enhancement, Algolia, IMAP/Gmail API, Rest APIs, Postman.

Forward MENA

Beirut, Lebanon

Full-Stack Developer Apprentice - Next.js, React, Node.js

May 2025 - Sep 2025

- Developed a high-performance HR onboarding/offboarding module with customizable task templates and settings, designing the UI in **Next.js** and managing **PostgreSQL** databases efficiently with **Prisma ORM**.
- Led a **2-person team**, overseeing task assignments, code architecture, and **GitHub** code reviews.
- Built and consumed **RESTful APIs** with **Node.js** in **microservices** architecture.
- Enforced **code quality standards** with Husky Git hooks and automated testing.
- Containerized applications with **Docker** for consistent deployment.
- Collaborated in an **Agile team**, leveraging AI tools (GitHub Copilot, ChatGPT) to accelerate development.

Skills: Next.js, Node.js, React, RESTful APIs, PostgreSQL, Prisma ORM, Docker, Git/GitHub, Husky, Testing, Agile, Leadership, Teamwork, Slack, AI-assisted development (GitHub Copilot, ChatGPT).

INTALIO

Beirut, Lebanon

Web Development Intern - Angular, Flask, SQL Server

Apr 2024 - Sep 2024

- Developed a **responsive, multilingual admin portal** for managing document classifiers using Angular, Flask, and SQL Server.
- Implemented **secure JWT-based authentication** to protect sensitive data.
- Designed a **real-time tracking dashboard**, boosting user engagement and data visibility.
- Authored **clear API documentation** with Swagger, streamlining developer onboarding and integration.

Skills: Angular, Flask, Python, SQL Server, JWT Authentication, Swagger (API Documentation), Responsive Design, Multilingual Applications, Real-Time Dashboards, Web Development, UX Enhancement, Full-Stack Development.

EDUCATION

Lebanese University - Master's in Web Development

Sep 2022 - Oct 2024

Lebanese University - Bachelor's in Computer Science

Sep 2019 - Sep 2022

Gebrane Tueni School - Diploma in Life Sciences

Sep 2018 - Jul 2019

SKILLS & LANGUAGES
