EDUCATION

Computer and communication engineering(3rd Year)
Ghobeiry 1st High School
GPA: 4.0

Lebanese University, Hadath
Beirut, Lebanon
October 2020 – May 2023

SKILLS SUMMARY

- **Languages:** Python, C++, C, C#.
- **Frameworks:** ASP .NET, .NET, Web Application
- **Platforms:** Visual Studio Code, Visual Studio
- **Tools:** AutoCAD, MATLAB, Power BI, Excel, PowerPoint, Tableau, MySQL, SSMS, Adobe Illustrator, Adobe Photoshop
- **Soft Skills:** People Management, Excellent Communication, Ability to meet deadlines, Product Illustrations, Layout and design, technical skills.
- **Courses:** Robotics

CERTIFICATES

- **Python Workshop: Security and Cryptography Applications** | CyberCommunity
 - Completed intensive training on Python fundamentals with a focus on cybersecurity applications and encryption techniques.

PROJECTS

TICKET BOOKING SYSTEM | Project

- Developed a desktop application using **C#** and **.NET** to manage movie ticket reservations and user authentication.
- Implemented a **Layered Architecture** by separating concerns into **Models**, **Services**, and **Forms** to ensure code maintainability.
- Managed data persistence using **JSON-based storage** (bookings.json, movies.json, users.json), implementing custom file-handling logic for CRUD operations.
- Designed a dynamic UI with **Windows Forms**, featuring a Login system, Admin Dashboard, and User Dashboard for ticket booking and reporting.
- Built specialized service classes (BookingService, UserService, ReportService) to handle business logic and generate ticket sales reports.
- Utilized **Object-Oriented Programming (OOP)** principles to create robust models for Events, Users, and Bookings.

LANGUAGES

Arabic (Native-Fluent), **French** (Good), **English** (V.Good)
