PROFESSIONAL SUMMARY

Motivated Computer and Communication Engineering student specializing in software engineering. Passionate about designing efficient and user-friendly software solutions. Strong problem-solving abilities, adaptability, and a fast learner, eager to contribute to innovative projects in a dynamic environment. Seeking opportunities to apply technical expertise in a fast-paced environment.

EXPERIENCE

- **Full-Stack Developer Intern**
FlexBox ai – Remote | June-August 2025
 - Contributed to the development of a VR-based analytical platform to evaluate and enhance presentation delivery through communication, eye contact, and content analysis
 - Flask, React, React Bootstrap, Firebase, Google Drive API, WebSocket

EDUCATION

Bachelor of Engineering in Computer and Communications (Master level)

Software and Networks

Antonine University, Lebanon

2022-present

Projects

- **Project 1: Money Transfer Platform**
 - Developed a production ready money transfer web platform as part of a team of 5 Software Engineers.
 - Laravel, React.js, Stripe, Google Cloud Vision, WebSocket, Google Maps, Email/SMS APIs, Google/GitHub Signup, Real-time Currency Conversion API
- **Project 2: Student Information System (SIS)**
 - Developed a university management platform with class enrollment, schedule conflict detection, and admin-controlled course management.
 - React.js, CSS, Node.js, Express.js, MySQL.
- **Project 3: Smart Makeup Inventory**
 - Trained classification and regression models to predict Makeup type and price for storage
 - Efficient Net, XGBoost Regressor, FastApi, React.js
- **Project 4: Food Vision Deep Learning Project**
 - Trained a deep learning model to separate 15 classes of food
 - Python, CNN, Data Augmentation, Transfer-Learning, Pandas, TensorFlow, Keras, Numpy
- **Project 5: Smart Job Posting Platform**
 - Developed a Job Posting platform with premium membership and AI profile + job posting enhancement.
 - Asp.Net Core, MVC, llama3, Stripe

SKILLS

- **Programming Languages:** C++, Java, JavaScript, Python
- **Computer Skills:** Git, OOP, Data Structure, UML, Adobe Photoshop,
- **Technical Skills:** Backend Development (Node.JS, Express.JS, Spring Boot, Laravel, .NET, Flask)
Frontend Development (HTML, CSS, React.JS, JavaFx)
Databases (MySQL, MongoDB, Firebase)
- **Soft Skills:** Fast Learner, Problem-Solver, Detail Oriented, Team Player and Critical Analysis skills
- **Languages:** English (Full professional proficiency), Arabic (Native), French (Native or Bilingual).

CERTIFICATIONS

- CCNA: Introduction to Networks. (June-2022)
- CCNA: Switching, Routing and Wireless Essentials. (January-2023)
