Career Objective

Full-Stack Developer and Computer & Communications Engineer with hands-on experience in building scalable web and mobile applications using Laravel, React, Flutter and other different programming languages. Passionate about delivering high-performance, user-focused solutions and contributing to innovative products in fast-paced environments.

Work Experience

- **Full-Stack Developer – Ink Code (Full-time)**

[8/2025 - present]

- Redesigned and enhanced the **KYVELI** website (**React**-based) and backend (**Laravel**), a women's fashion platform blending luxury and affordability.
- Improved **UI/UX** for a polished, elegant experience that resonates with the brand's luxury-meets-budget positioning.
- Collaborated closely with designers and marketing to sync website functionality with "super-deals," category filters, and product browsing flows on the website.
- Enhanced the **Laravel**-based Admin Panel, enabling efficient management of products, categories, and stock transfers across multiple countries.

- **Full-Stack and Mobile Developer – iEvents (Part-time)**

[3/2025-4/2026]

- Provide technical support and maintenance for a **Laravel** backend and **Flutter** mobile application, troubleshooting production issues and implementing fixes.
- Develop and optimize **REST APIs** in **Laravel** (authentication, validation, CRUD, error handling) and integrate them into **Flutter** using clean service/repository structure.
- Debug and resolve mobile issues across Android/iOS (**API** connectivity, app crashes, **UI/UX** bugs), ensuring stable releases and smooth user experience.
- Maintain database operations in **MySQL** (migrations, relationships, query optimization) and improve performance for frequently used endpoints.
- Implement and support app features such as user management, event listings, bookings/registrations, notifications, and admin workflows.
- Monitor logs, handle edge cases, and improve reliability with better status codes, standardized **API** responses, and defensive server-side checks.
- Collaborate with the team to document issues, propose improvements, and deliver quick turnaround hotfixes when needed.

- **Intern, Quantum**

[5/2025-7/2025]

- Built a full website using **React (TypeScript)** and **Django** backend.
- Collaborated in a professional team environment, using **Git**.

- **Full-Stack Mobile App for Qatar (Freelance)**

[1/2025-3/2025]

- Built a **Flutter-based mobile app** tailored for the hospitality sector in Qatar.
- Implemented a **Laravel backend** to manage the data.
- Integrated features like multilingual support, service filtering, and location-based discovery.
- Ensured smooth user experience with clean UI and real-time **API** communication.
- Integrated **Apple-Pay** for secure in-app payments.
- Implemented a custom **Chatbot** to assist users.
- Real-Time notifications using Firebase.
- Hosted the website using **HostGator (cPanel)**.

- **Lebanese Sign Language Translator App – 2Sign**

[1/2025-5/2025]

- Developed **2Sign**, a real-time sign language translator mobile app using **AI and Computer Vision**.
- Collected and cleaned a custom **Dataset** of Arabic sign gestures through images and video recording.
- Processed hand landmark data using **Media Pipe** and trained models using **TFLite, h5, pth**.
- Integrated the trained model into a mobile app developed via **Flutter**.
- Deployed a **Fast API backend** to handle multilingual chatbot responses and fallback support.

- **Backend Developer – Accounting System (Freelance)**

[6/2024-5/2024]

- Designed and implemented backend logic using **PHP** for a custom accounting platform.
- Built modules for user accounts, transaction logging, reporting, and performing.
- Used secure data handling techniques and optimized **MySQL** queries.

- **Intern, Bluemint**

[6/2023-8/2023]

- Developed a website using **HTML, CSS, and Laravel**.
- Independently implemented responsive UI and backend logic using the **MVC** pattern.
- Learned real-world application of web development in a structured setting.

Education

- **Rafik Hariri University – Bachelor of Engineering in Computer and Communications Engineering (2021 – 2025)**
- **Dr. Nazih El-Bizri High School – Saida (2017 –2021)**
Graduated with an average of 15.9/20 in the Grade 12 General Science Lebanese Official Exams (2021).

Certificates

MATLAB Course Competition
Data Acquisition Workshop

CCNA Certification
Full-Stack Web Development

Skills

Soft Skills		Technical Skills				
	Languages	Frontend	Mobile	Backend	Tools	Hosting
Problem-Solving						
Teamwork and collaboration	C#, C++	HTML/CSS/JS	Kotlin	Laravel	GitHub, GitLab	cPanel
Critical thinking	PHP, Python	React	Flutter	Django	Postman	Firebase
Time management	Dart, Kotlin	Next.js/ Vue.js	React Native	NestJS	Docker	VPS

Languages

Arabic (Native), English (Fluent), French (Basic)
