

George Nammour

SENIOR IT PROJECT MANAGER

Profile

Skilled in leading cross-functional projects, building trust quickly, and collaborating effectively with dispersed teams.

Transitioning into project management 13 years ago, I discovered my passion for coordinating processes, leading teams, and driving successful project deliveries. An organized self-starter with a strong entrepreneurial spirit, I excel at building and managing offshore teams while maintaining the flexibility to handle multiple projects simultaneously.

Employment History

Senior IT Project Manager (Remote), Digicel Group, Jamaica, Kingston

MARCH 2025 – OCTOBER 2025

- Worked with the Shapes Program at Digicel Group, a leading telecommunications provider across the Caribbean, Central America, and Asia Pacific.
- Worked closely with Senior Architects, Business Owners, and Commercial Teams on a daily basis, collaborating with teams based in Ireland, the USA, Latin America, and the Caribbean.
- Oversaw the migration of multiple markets from legacy systems to new external vendor solutions, coordinating with partners in Canada and the USA, and explaining complex technical concepts in a clear manner.
- Monitored and coordinated the activities of multiple internal teams, ensuring alignment across objectives, timelines, and deliverables. My work required a strong understanding of both technical and business requirements, along with the ability to manage cross-functional teams and stakeholders from diverse regions.
- Provided ongoing support and strategic guidance within the Shapes Program by collaborating with the Program Manager and the PMO Manager.

Technical Project Manager (Hybrid), CME, Beirut

APRIL 2022 – JUNE 2024

- Led web/mobile apps and backend solutions for MDA, SportsMax, MonCash Products at Digicel Group, a leading digital provider in Telecommunications across the Caribbean, Central America, and Asia Pacific.
- Managed two teams with 15 engineers located in UAE, India, Egypt, and Lebanon.
- Built and developed one of the teams from the Forming stage, guiding them through Storming, Norming, and Performing.
- Implemented Scrum methodology for one team and Kanban for the other, tailoring the approach to each team's needs.
- Fostered a customer-centric mindset, strengthening customer trust and engagement.
- Provided coaching on leadership and problem-solving skills, empowering teams to collaborate effectively and adapt to shifting priorities with flexibility.

Engagement Manager (Remote), EXCEED IT Services, Abu Dhabi

SEPTEMBER 2021 – FEBRUARY 2022

- Led ERP Projects, Power BI KPI product integration, HR products, and Employee Performance Management tools for public sector clients in the UAE (Department of Tourism and Commerce Marketing, Ministry of Education), Oman (Ministry of Finance), and Bahrain.
- Acted in a customer-facing role, ensuring strong client relationships and effective communication throughout project lifecycles.
- Developed and maintained detailed project plans and schedules, handling forecasting, planning, risk/change management, issue escalation, and status reporting.

Project Manager (Remote), Digital Minds, Beirut

APRIL 2020 – MARCH 2021

- Managed eCommerce websites and complex interactive projects for a leading technology digital agency, serving top-tier clients.
- Acted as a customer-facing Subject Matter Expert in Payment Gateway Integrations, specializing in Stripe, 2Checkout, Braintree, Cybersource, and PayPal for eCommerce platforms.

Project Manager, FOO, Beirut

APRIL 2018 – MARCH 2019

- Led FinTech projects in Mobile & Digital Banking, managing cross-functional system integration for enterprise clients in Lebanon, Iraq, Bahrain, and KSA.
- Ensured project success by driving execution, delivery, and communication to meet customer expectations on quality, cost, and timelines.
- Built strong client partnerships by understanding business goals, strategies, and challenges.
- Identified and resolved key project issues by coordinating with teams, product management, and engineering.
- Managed risk activities for the CCB and facilitated conflict resolution with senior management.
- Monitored and reported weekly progress to the Program Manager and senior stakeholders.

Product Manager / Project Manager, L'INTERACTIF, Beirut

JULY 2013 – FEBRUARY 2018

- Led interactive web app and eCommerce projects for clients in Dubai, Saudi Arabia, and Lebanon.
- Managed a real-time cryptocurrency trading platform for CoinLink Limited (UK), collaborating with a U.S.-based vendor for the trading platform and a virtual support team in Kiev, Ukraine.
- Built strong relationships with international partners in Dubai, ensuring seamless collaboration.
- Provided regular project status updates to clients.
- Oversaw website and mobile development, achieving a strong track record in traffic management across multiple client projects.
- Worked closely with development and UX teams to ensure project requirements were met.

Technical Lead, L'INTERACTIF, Beirut

JANUARY 2011 – JUNE 2013

- Managed the full product lifecycle and development of a web-based insurance application, driving significant business growth and profitability for brokers.
- Implemented a strategy to accelerate CMS development, creating a 2-minute CMS generator to streamline content management for company websites.
- Continuously fostered team motivation, inspiration, and leadership development.
- Engaged directly with external customers across all projects.

Full Stack Developer, L'INTERACTIF, Beirut

JULY 2009 – DECEMBER 2010

- Developed ALIG Insurance Company's first online insurance selling system for brokers, providing a web platform for seamless policy creation and management. The system enables ALIG Administration to dynamically add insurance products, generate user-friendly reports, and customize printed insurance documents for brokers.
- Designed the web application's architecture to meet technical and operational requirements while optimizing performance, security, and manageability.

Dot Net Developer, MEDCO SAL, Beirut

JULY 2008 – JUNE 2009

- Converted C/C++ (WINDOWS 95) Software of LitersPlus, a Medco Product, into VC++ with Dot Net Framework 2.0 in able to make it be executable on Windows XP.
- Customized the New Dot Net Version of the application to become centralized outside Medco Headquarters and used by the Lebanese Army by printing their LitersPlus Cards.
