SUMMARY

Computer Science student at Lebanese University (Expected Graduation: 2026). Focused on backend development using ASP.NET Core (MVC, Razor Pages, Minimal APIs) and SQL databases. Basic knowledge of Linux and Git version control. Interested in backend systems and software engineering.

TECHNICAL SKILLS

- Programming: C#, Java, PHP, JavaScript, SQL
- Backend: ASP.NET Core (MVC, Razor Pages, Minimal API)
- Databases: SQL Server, MySQL
- Tools: Git, GitHub, Visual Studio, Linux basics

EDUCATION

Bachelor in Computer Science (2023–2026)

Lebanese University – Faculty of Sciences

Relevant Coursework: Data Structures, Databases, Software Engineering, OOP, Operating Systems

EXPERIENCE

Vice President – Mathematics Club

- Organized academic events and coordinated logistics
- Managed student engagement and event execution

Member – GDG on Campus

- Supported technical workshops and student tech events
- Assisted in coordination and organization tasks

PROJECTS

Academic & Personal Projects:

- Built small academic applications using Java and PHP
- Worked on database-related coursework projects using SQL
- Currently improving backend skills through ASP.NET Core practice projects
