## Professional Summary

---

Computer Science student graduating in May 2026, with internship experience in full-stack web development and WordPress development. Interested in front-end and full-stack roles focused on building responsive, user-friendly web applications.

## Education

---

**Lebanese American University**

*Sept 2023 – May 2026*

*B.S. in Computer Science*

- Repeatedly placed on the Dean's Honor and Distinction List.

## Experience

---

**IDM (Globalcom Holding)**

*Beirut, Lebanon*

*Web Development Intern*

*On-site*

*Jun 2025 – Aug 2025*

- Contributed to the development of a CMS for a client website, supporting real-world content management needs.
- Built front-end and back-end functionality, including database-related features, payment integration, and email handling workflows.
- Collaborated on implementing web application features across the stack to improve usability and site functionality.

**Devign**

*Remote*

*WordPress Intern*

*Jun 2025 – Aug 2025*

- Developed and maintained WordPress websites while applying SEO, responsiveness, and design best practices.
- Tested, troubleshooted, and documented website changes to improve quality and maintainability.
- Worked with clients on real projects, incorporating feedback and supporting delivery requirements.

## Projects

---

**HiddenSpot App**

*Java, XML, Firebase*

- Developed an Android app where users can post and discover unique places in Lebanon.
- Implemented features including user registration, post management, favorites, notifications, and profile management.

**ABET Course Assessment Website for LAU**

*React.js*

- Contributed to the frontend development of a web application for Lebanese American University to automate ABET assessment workflows and replace manual paper-based processes.
- Designed features for instructors, administrators, and coordinators to manage forms, monitor outcomes, and track academic data more efficiently.

**Gift Shop Website**

*HTML, CSS, JS, PHP,  
jQuery, AJAX, SQL*

- Developed a full-stack e-commerce website for a resin gift shop with user registration, product customization, purchasing, and checkout functionality.
- Implemented interactive frontend behavior and backend logic to support browsing, ordering, and customer account workflows.
- Integrated SQL-backed functionality for storing and managing application data.
