CAREER OBJECTIVE:

Computer Science graduate with experience in full-stack development and a strong interest in artificial intelligence. Skilled in designing and developing scalable applications, I am passionate about creating innovative solutions and leveraging emerging technologies to solve real-world challenges. Eager to take on challenging projects, I am committed to continuous learning, professional growth, and contributing to impactful, technology-driven initiatives.

EXPERIENCE

Capelli Sport – Web Support

May 2025 - 2026

- Managed and updated the company's club and store platform, adding, modifying, and deleting items and club information to ensure accurate online representation.
- Performed QA testing across websites to ensure functionality, reliability, and data accuracy for all teams.
- Created TPR (Team Page Request) files for all clubs, streamlining requests and ensuring up-to-date information.
- Initiated and contributed to an AI tool development to automate and simplify TPR creation from company booklets, improving efficiency and reducing manual effort.

SiliconCedars company, Software Developer

March 2024 - May 2025

- Designed, developed, and maintained scalable software applications using Python, JavaScript, Node.js, Electron.js, Bash, and Docker.
- Collaborated with cross-functional teams to define requirements and deliver high-quality, reliable software solutions.
- Conducted manual and automated QA testing for web applications using Selenium and Postman, and tracked defects using Jira.
- Optimized application performance and reliability through debugging, troubleshooting, and QA processes.
- Maintained efficient development workflows leveraging version control and containerization tools.
- Experienced in server testing, proficient in programming, and skilled in managing and repairing RAID configurations

Habib Keyrouz Foundation, IT Instructor

July 2020 - November 2020

- Delivered basic IT training on Microsoft Office Suite, including Word, Excel, PowerPoint, and Outlook.
- Taught email management, file organization, and system navigation best practices.
- Assisted students in developing practical IT skills for professional and academic use.
- Provided hands-on exercises to reinforce learning and improve digital literacy.
- Guided students through troubleshooting common software and technical issues.

- Created and designed responsive websites using HTML, CSS, Sass, and JavaScript, ensuring cross-browser compatibility and optimal performance.
- Developed user-friendly interfaces with a focus on accessibility and seamless navigation to enhance the user experience.
- Implemented modern design principles and coding practices to build visually appealing and functional web pages.

EDUCATION & CERTIFICATIONS

YouBe AI Company:

- Certificate in AI and Data Science, 2026

Lebanese International University (LIU), Tripoli

- B.S. in Computer Science, 2020 - 2023

Gebran Khalil Gebran Public School, Bcharri

- Lebanese Baccalaureate in General Science, 2018

LANGUAGES

- Arabic: Native
- French: Fluent (speaking,reading,writing)
- English: Fluent (speaking, reading, writing)

SKILLS

Programming Languages: JavaScript, Python, Java, PHP, NodeJs, Bash scripting

Web Development: HTML, CSS, Sass, ReactJs

Mobile Application Development: Flutter

Database Management: SQL, MongoDB

Testing & QA Tools: Selenium (Web Automation), Postman (API Testing), Jira (Bug Tracking & Defect Management)

RELEVANT COURSES

- Data Structures
- Algorithm Design
- Intermediate Programming with Objects
- Concept of Programming
- Software Design Methodology

LEADERSHIP ACTIVITIES

- Volunteer, Lebanese Red Cross - Emergency Medical Services
