

Abbas Olleik

olleikolleik968@gmail.com, +961-78968338

Summary

Highly skilled and self-motivated freelance Web Developer with expertise in both front-end and back-end development. Demonstrated proficiency in creating responsive and user-friendly websites for clients across various industries. Committed to continuous learning and professional development, with a proven track record of completing relevant courses and certifications.

EDUCATION

Al Maaref University, Beirut, Lebanon
Bachelor in Computer Science

September 2021-2025

EXPERIENCE

Data Science Intern

Al Maaref University. Internship

July 2025- Sep 2025

Gained practical experience in data collection, cleaning, and analysis using Python and popular data science libraries. Assisted in building predictive models, visualizing data insights, and preparing analytical reports. Collaborated with the team to apply machine learning techniques for real-world problems. By the end of the internship, successfully worked on a real estate project focused on analyzing property data and predicting housing prices using data-driven insights.

IT Support

Memar Group

May 2024 - July 2024

- Provided technical support for hardware and software issues
- Assisted users with troubleshooting system and network problems
- Installed and configured operating systems and basic applications
- Monitored and maintained IT systems to ensure smooth daily operations
- Responded to support requests and resolved technical issues efficiently
- Supported office staff with IT-related tasks and system access
