github.com/Omaark97 Beirut, Lebanon

TECHNICAL EXPERIENCE

My_Office – Document Archive Mobile App (In Development)

Solo Developer

2026 Beirut, Lebanon

- Building a Flutter mobile app to digitalize document management for a real business use case (notary sale deeds and authorizations)
- Stack: Flutter, Firebase, Auth, Firestore, Firebase Storage; integrating in-app document scanning via the cunning_document_scanner Flutter package.
- Designing UI from real-world references (Dribbble, Mobbin); implementing secure authentication and indefinite cloud storage of scanned documents and PDFs.

VersaLife – Healthcare Web Application (Senior Project)

Backend Developer - Beirut Arab University

2025 Beirut, Lebanon

- Built backend services for a healthcare platform serving three user roles (Admin, Doctor, Patient) using Node.js, Express, and MongoDB.
- Implemented authentication and role-based access control to protect sensitive medical and separate privileges between user types.
- Designed and tested REST APIs with input validation, error handling, and controlled access to user records using REST API testing tools (Thunder Client).

Operations Coordinator (Family Business)

Car Registration Services

2024 - Present Beirut, Lebanon

- Process and verify vehicle ownership transfer documents and notarized authorizations, ensuring accuracy in regulated legal paperwork
- Manage digital and physical document archives for ongoing client transactions, coordinating between clients, notaries, and insurance providers.
- Issue vehicle insurance policies in-office, handle client intake, and manage data entry across registration and insurance system under tight regulatory deadlines.
- Identified inefficiencies in paper-based document tracking and I am developing an internal Flutter + Firebase archive app to digitalize the workflow.

EDUCATION

Bachelor of Science in Computer Science

Beirut Arab University

2021 - 2025 Beirut, Lebanon

- Relevant coursework: Operating Systems, Computer Networks, Database Systems, Software Engineering, Data Structure & Algorithms.

CERTIFICATIONS & TRAINING

The Web Developer Bootcamp — Colt Steele (Udemy), 2025.

Covered Node.js, Express, MongoDB, REST APIs, and authentication; concepts applied to senior project.

PROFILE

Computer Science graduate with hands-on backend development experience and operational work in a regulated documentation environment. Built authentication and role-based access control for a healthcare web application, with a focus on data integrity and system reliability. Currently developing a Flutter + Firebase mobile app to digitalize a real-world business workflow.

TECHNICAL SKILLS

Languages

JavaScript, Dart, SQL (basic)

Backend

Node.js, Express, REST APIs, MongoDB, Authentication & RBAC

Mobile

Flutter, Firebase (Auth, Firestore, Storage)

Tools

Git, GitHub, VS Code, Postman

Concepts

Operating Systems, Networking Fundamentals, Asynchronous Programming

LANGUAGES

Arabic Native

English Professional working proficiency

French Conversational
