

JAD RAMMAL

iOS Developer | Beirut, Lebanon | +961 71 291145 | jrammal12@gmail.com

SUMMARY

Motivated iOS Developer with a strong foundation in Swift, UIKit, and SwiftUI. Experienced in building and maintaining production-grade apps from concept to deployment, with a focus on code reusability, CI/CD automation, and cross-functional collaboration.

EXPERIENCE

Junior iOS Developer | Monty Mobile, Beirut, Lebanon

Jan 2025 – Present

- Develop and maintain My Monty, an e-wallet/banking app enabling secure digital transactions for thousands of users.
- Drive incremental migration from UIKit to SwiftUI, building reusable components adopted across all product modules.
- Engineered custom Xcode file templates and a reusable SPM framework, cutting new module setup time significantly.
- Architected and own the CI/CD pipeline using Fastlane, automating build, test, and App Store distribution workflows.
- Spearheaded cross-functional delivery via GitLab using Swift, SwiftUI, Combine, Firebase, and REST APIs.

iOS Developer Intern | SwiftArabia, Beirut, Lebanon

Sep 2024 – Dec 2024

- Developed and maintained iOS app features in Swift, UIKit, and SwiftUI under senior developer mentorship.
- Strengthened team delivery by owning API, Firebase, and local storage integrations through structured GitHub workflow.

EDUCATION

B.Sc. Computer Science | Lebanese International University, Beirut

2024 | GPA 3.4

Baccalaureate Certificate of Secondary Education | Toulouse College, Beirut

2018 | Very Good 17.07
