SUMMARY

A hard working and proactive Computer Science student in Lebanese University expecting to graduate in the summer of 2026, always eager to solve and discover and looking forward to expand my skills in the near future.

EDUCATION

Bachelor in Computer Science 2023 – present
Lebanese University

General Science – Lebanese Baccalaureate 2021 – 2023
Marjoyoun National College

PROJECTS

Supermarket Management System | Software Engineering Project Oct 2025 – Jan 2026
Requirements Analysis, System Design & UML Modeling

- Designed a complete Supermarket Management System to automate POS , inventory, supplier management, and reporting.
- Conducted business and functional requirements gathering and analysis.
- Defined system features and nonfunctional requirements following IEEE-style SRS.
- Created UML diagrams including use case and class diagrams.
- Designed a relational database schema for sales, products, users, and suppliers.
- Performed feasibility analysis and requirement prioritization.
- Prepared and delivered a structured technical presentation of the project.

CERTIFICATES

1. AI for Social Impact Course Jan 2025 – Feb 2025
Online

- Acknowledged the fundamentals of AI and how it works.
- Got introduced to Machine Learning, Data Science,LLMS and Computer vision.
- Used AI tools to help in Content creation.
- Understood the ethical responsibilities in using generative AI.
- Mastered prompt engineering to effectively guide AI outputs.

2. Capture The Flag (CTF) Mar 2025 – Jun 2025
Online / Practical

- Learned various cybersecurity domains: Cryptography, Application Security,infrastructure and reverse engineering.
- Tackling real-world security challenges in a competitive environment.
- Gained hands on vulnerability experience and defense strategies.
- Collaborated with tech enthusiasts, enhancing problem-solving skills

KEY SKILLS

LANGUAGE SKILLS

- Fluency in English and Arabic

COMPUTER SKILLS

- HTML
- CSS
- Javascript
- C/C++
- PHP
- Flutter
