Email: ahmedabdelrida@gmail.com

Computer Science student specializing in AI and machine learning, with hands-on experience building and integrating AI-driven systems in security-focused environments. Strong background in Python, LLMs, and automation, with a passion for solving real-world problems through technology.

PROFESSIONAL EXPERIENCE

AI Engineering Intern at Metropolitan Security,

Implemented AI-driven features across company platforms, focusing on automation and intelligent decision support. Built and customized AI models tailored to company-specific needs. Integrated AI agents into existing systems to enhance performance and reduce manual processes. Worked closely with development teams to test, deploy, and refine AI-powered solutions

Sales Representative at Spinneys,

Communicated product value to customers through clear, confident, and persuasive conversations. Strengthened active listening skills by identifying customer needs and responding with solutions. Improved interpersonal and negotiation skills through daily client interactions. Maintained professionalism while working toward sales goals in a high-pressure environment

EDUCATION

Lebanese American University

Bachelor's in Computer Science

Currently pursuing a Computer Science degree, driven by hands-on experience implementing AI solutions in real-world security environments and a strong interest in building technology that solves complex problems.

Relevant Coursework: Data Structures, Algorithms, Machine Learning, Computer Systems and Security.

SKILLS

- Programming & Software: Python, Object-Oriented Programming, API Integration
- AI & Machine Learning: Artificial Intelligence, Large Language Models, AI Agents(LangChain, AutoGPT-style workflows), Model Customization, Prompt Engineering
- Security & Systems: Security-Focused System Design, Secure Software Development
- Tools & Technologies: Git, REST APIs, Cloud Platforms(AWS / Azure / GCP)
- Communication: Technical Communication,Team Collaboration

Languages

Fluent in English, French and Arabic
