

Hasan AL Ammar

Debbieh, Lebanon | +961 71475403 | hasanalammar.01@gmail.com

Professional summary

Dedicated Computer Science student with 4 years of programming experience and a strong foundation in Full-Stack Development and Database Management. Skilled in writing clean, scalable code and applying Data Structures and Algorithms to solve complex problems. Passionate about continuous learning and contributing to high-impact technical projects.

Technical Skills

Languages: Java, C++, SQL (MySQL), HTML5, CSS, JavaScript, PHP.

Frameworks & Tools: Cisco Packet Tracer, JavaFX, Oracle Data Modeler, Figma (UX/UI), Laravel

Core Competencies: Network configuration, Management Information Systems (MIS), Database Design, Data Structures & Algorithms.

Projects & more

- Enterprise Network Design (Cisco Packet Tracer): Designed and configured a simulated network infrastructure, including subnets, routing, and switching to ensure seamless connectivity and security.

- Clinic Management Information System: Developed an MIS for a clinic system utilizing Data Structures and Algorithms in Java.
- Airline Management System (GUI): Developed a Graphical User Interface (GUI) for an airline MIS using JavaFX.
- Travel Booking Platform: Created a travel booking website for airlines using HTML, CSS, JavaScript for frontend. Laravel, php for backend.
- Employee Department Management System: Designed and implemented a high-level database for department management using Oracle Data Modeler and MySQL.
- Lab Experiment Website: Designed a user interface for a lab experiment platform using Figma.
- Shopping Management System: Developed a Management Information System (MIS) for shopping using the Java language.

Education

Antonine University -Beirut, Lebanon

September 2022 – June 2024

AL Maaref University -Beirut, Lebanon

September 2024 – Present

Undergraduate Bachelor in Computer Science.
