

SUMMARY

Computer Science student at the American University of Beirut on a full scholarship with strong academic performance and a GPA of 4.074 (Spring 2025/2026) and an overall GPA of 3.50. Built a solid foundation in computing through coursework and projects in programming, algorithms, systems, and software development, along with participation in technical bootcamps. Alongside academic achievement, actively engage in volunteering and community work, demonstrating responsibility, teamwork, and commitment beyond the classroom. Motivated to continue growing in the field of computer science, gain hands on internship experience, and contribute to meaningful, real world projects

PROJECTS

Connect 4 Game Development
CMPS 241 (Systems Programming)
September, 2025 - December, 2025

Collaborated on developing a multithreaded Connect 4 game as part of a systems programming course project. Implemented multithreading to handle concurrent game operations efficiently. Managed code and collaborated with teammates using GitHub for version control

AUB Clubs Management Platform
January, 2026 - May, 2026
Developed a full-stack web application for AUB clubs using tRPC, Prisma, PostgreSQL, Next.js, and React as part of the CMPS271 Software Engineering course. Built features including an AI-powered club recommendation chatbot, club membership requests and status tracking, messaging between members and admins, announcements, events, and club discovery pages. Collaborated in a team environment using Git for branching, version control, and project coordination
Team Size : 5

WORK EXPERIENCE

Summer Camp Coach

National Evangelic Institute For Girls and Boys / June, 2023 - September, 2023
Led children activities, collaborated with staff, and ensured a safe, engaging environment while developing leadership, teamwork, and communication skills

Teacher Assistant

Dawha Academic Bridge 2 / June, 2022 - August, 2022
Assisted in managing and engaging children aged 3/4, organized educational activities, and collaborated with colleagues to support a positive learning environment while strengthening teamwork and communication skills

EDUCATION

High School

Dr Nazih Bizri High School / September, 2018 - July, 2024
Graduated from Dr. Nazih Bizri High School, one of the leading public schools in southern Lebanon. Achieved a score of 18.3/20 in the official examinations, ranking first in the Life Sciences section, and received a Certificate of Excellence. Actively participated in academic and extracurricular activities, including Model United Nations (MUN) conferences, which strengthened leadership, critical thinking, and public speaking skills

Bachelor of Science in Computer Science

American University of Beirut / August, 2024 - Continue,
Currently pursuing a Bachelor of Science in Computer Science at the American University of Beirut (AUB) on a full scholarship. Completed coursework in mathematics, data structures, algorithms, Java, C/C++, computer architecture, networking, software engineering, theory of computation, and database systems, building a strong foundation in software development, systems design, and algorithmic problem-solving. Maintained a GPA of 4.074 in Spring 2025/2026 and an overall GPA of 3.50 over the past four semesters. Actively engaged in academic and volunteer activities that strengthen leadership, teamwork, and communication skills

TRAINING & CERTIFICATIONS

TRAINING COMPLETION CERTIFICATE TRAINING COMPLETION CERTIFICATE
Maharat min Google Digital And Media Literacy (Dml) /

Student Volunteer The Annual Undergraduate Open House 2025
American University of Beirut / 2025

Certificate of Recognition for Supporting Displaced Communities from Southern Lebanon during the 2024 Conflict
Association of Development without Borders NABAA / 2024

Volunteer Tutor MMKN Organization Assisted students in grades 8,9 with various subjects, providing academic support, guidance, and mentorship to enhance learning outcomes
MMKN / 2025

Machine Learning Bootcamp Participant /IEEE & AI Journey at AUB
IEEE and AI Journey / 2025

Software Engineering Bootcamp Participant /Amazon & Women in Engineering
Amazon Industry Program / 2026

TECHNICAL SKILLS

Mathematics & Statistics

applied to algorithmic thinking

Programming

C/C++/Java with focus on problem solving

Networking

I have a strong interest in networking and have particularly enjoyed studying how computers communicate, work together, and maintain secure and efficient data exchange

Data Structures and algorithms

Computer Architecture

logical reasoning

React and Next.js development

Git & Version Control

Team Collaboration in Agile Development

Backend development with trpc and Prisma

AWARDS & HONORS

CERTIFICATE OF PARTICIPATION IN THE FIRST SMART COMPETITION FOR 2016 2016

HONORABLE MENTION AWARD 2018

For demonstrating Excellence in Representation, Distinguished Performance in the Second Middle school LAU Model Arab League Conference 2018

CERTIFICATE OF PARTICIPATION AS A DELEGATE IN THE 17TH HIGH SCHOOL GC LAU MODEL UNITED THE 17TH HIGH SCHOOL GC LAU MODEL UNITED NATIONS CONFERENCE 2022 2022

CERTIFICATE OF PARTICIPATION WITH DEVELOPMENT CERTIFICATE OF PARTICIPATION WITH DEVELOPMENT ACTION WITHOUT BORDERS NABAA 2023

Participated in structured community initiatives and awareness campaigns, collaborating within teams to support education and child-rights programs. Strengthened communication, teamwork, and problem-solving skills through long-term, organized engagement

Humanitarian Volunteer /Refugee Support & Child Engagement 2026

Volunteered with Development Without Borders NABAA,contributing to humanitarian relief efforts supporting displaced families, including Palestinian refugees during periods of conflict. Assisted in organizing and distributing food and essential supplies, ensuring coordinated and fair delivery of aid to affected communities. Also participated in planning and facilitating activities for children in shelter environments, helping create a safe, supportive, and engaging atmosphere during difficult circumstances

CAREER HIGHLIGHT

CMPS 201 (Introduction to Programming), CMPS 202 (Data Structures & Algorithms), CMPS 241 (Systems Programming: C/C++, Networking & Multithreading), CMPS 221 (Computer Architecture & Design), CMPS 214 (Algorithm Analysis), CMPS 211 (Discrete Structures), Theory of Computation (A), Software Engineering (A+), Database Systems & SQL (A), MATH 201 (A-), and MATH 218 (A-). Built a strong foundation in software engineering, algorithms, systems programming, computer architecture, databases, and mathematical reasoning
